Ridd,2017-08-24 Homer s Iliad and Odyssey and Virgil s Aeneid are three of the most important and influential works of
Western classical literature Although they differ in subject matter and authorship these epic poems share a common purpose

Fiction on the Fringe: Novelistic Writing in the Post-Classical Age Grammatiki Karla, 2009-05-20. This collection of essays offers a comprehensive examination of texts that traditionally have been excluded from the main corpus of the ancient Greek novel and confined to the margins of the genre, such as the *Life of Aesop*, the *Life of Alexander the Great*, and the *Acts of the Christian Martyrs*. Through comparison and contrast, intertextual analysis, and close examination, the boundaries of the dichotomy between the fringe vs. the canonical or erotic novel are explored, and so the generic identity of the texts in each group is more clearly outlined. The collective outcome brings the fringe from the periphery of scholarly research to the centre of critical attention and provides

methodological tools for the exploration of other fringe texts.

Jacob Jordaens Kristi Nelson, 1998. This study explores all aspects of Jacob Jordaens's extensive activity as a designer of tapestry and his prominence in this field. It places Jordaens within the context of design for and the manufacture of tapestry during the seventeenth century in Flanders, when it was considered the most important form of textile and an item of luxury. The publication includes a discussion of Jordaens's preparation for work in this field, his approach to design, his patrons, and his relationship to contemporaries in the same area of artistic endeavour. The six major series designed by Jordaens: *The History of Alexander the Great*, *The Life of Odysseus*, *Scenes from Country Life*, *The Riding School*, *Proverbs*, and *The Life of Charlemagne* are thoroughly analyzed with regard to surviving visual material and written statements, the interpretation and content of the narrative scenes, and the significance of the themes for the seventeenth century. A catalogue raisonné provides data on all the tapestries woven after Jordaens's designs, with the preparatory works for them, including drawings, modelli, and cartoons. The initial studies in watercolour are particularly illuminating about his unusual sensitivity for this type of work. The tapestry weavers and various sets they produced after his designs are also established. Jordaens was especially prolific in the area of tapestry design, and it is shown that some of his most innovative and sophisticated inventions were produced for tapestry. His effort in this area was one of the most unique in Flanders, and his achievement remains distinct.

Virtue, 1994. **Approaches to Homer** Robert J. Rabel, 2005. Ten new essays from a distinguished cast of mainly North American scholars approach Homer with insights gained from the modern disciplines of psychology and anthropology, narratology, oral theory, and cognitive research. But the contributors also attend to ancient modes of approach to the Homeric poems: linguistic and narratological, ethical, and

psychological The volume focuses both on literary technique in the poems and on the portrayal of characters and peoples central and marginal
