Res Gestae ,2005 **Daily Variety** ,1959 **The State of Black Progress** Star Parker, 2024-03-19 Black Americans have arguably arrived at the height of their cultural prominence In politics entertainment academia and nearly every sphere of influence black issues dominate the national discussion Yet many black Americans are suffering more than ever from the blight of poverty physical and mental health struggles lack of opportunity and failing schools How do these signs of success on the surface coexist with social stagnation on the ground in the black community This edited volume sponsored by the Center for Urban Renewal and Education and featuring contributions from W B Allen Judge Janice Rogers Brown ret Ian Rowe Sally Pipes Stephen Moore and others addresses this question in light of American values and the history of constitutional jurisprudence In the 1860s black America was promised emancipation but continued to experience subjugation In the 1960s black America was promised equality but was frequently exploited Racial discrimination played a role but in the intervening decades misguided progressive policies and the normalization of victimhood rhetoric has proven even more disastrous By failing to live up to American ideals our nation denied many black Americans their chance at the American Dream The scholars and luminaries who contributed to this volume believe that what has been lost can be recovered If our nation recognizes the history of our current predicament embraces the founding principles that made America an economic powerhouse and commits to an agenda of empowering

fiscal educational and faith and family affirming policies then black Americans can overcome the obstacles that most hamper progress in their communities
