*The Playful Politics of Memes* Mette Mortensen, Christina Neumayer, 2023-05-22 Memes work as rhetorical weapons and discursive arguments in political conflicts. Across digital platforms they confirm, contest and challenge political power and hierarchies. They simultaneously create social, distortion, hostility and a sense of community. Memes thus not only reflect norms but also work as a tool for negotiating them. At the same time, memes meld symbolic and cultural elements with technological functionalities, allowing for replicability and remixing. This book studies how memes disrupt and reimagine politics in humorous ways. Memes create a playful activity that follows a shared set of rules and gives a shared voice which may generate togetherness and political identities but also increase polarization. As their template travels, memes continue to appropriate new political contexts and to re-negotiate frontiers in the political. The chapters in this book allow us to chart the playful politics of memes and how they establish or push frontiers in various political, cultural and platform-specific contexts. Taken together, memes can challenge and regenerate populism, carve out spaces for new identity formations and create togetherness in situations of crises. They can also, however, lead to the normalization of racist discourses. This book will be of interest to researchers and advanced students of Media and Communication Studies, Information Studies, Politics, Sociology and Cultural Studies. It was originally published as a special issue of the journal *Information Communication Society*.

[Online Virality](#) Valérie Schafer, Fred Pailler, 2024-08-19 The book *Online Virality* edited by Valérie Schafer and Fred Pailler (C2DH, University of Luxembourg) aims to provide a comprehensive examination of online virality. It explores the many ways we can think about this modern phenomenon and analyse the circulation, reception and evolution of viral born digital content. Virality and content sharing always intertwine material, infrastructural, visual and discursive elements. This involves various platforms, stakeholders, intermediaries, social groups and communities that are constantly re-defining themselves. Regulation, curation and content moderation, politics as well as affects and emotions, fears, humour, empathy, hatred, are also at the core of online virality. The publication offers an interdisciplinary overview on online virality by including different types of scientific inputs such as precise case studies, various methodological approaches including close and distant reading, visual studies, discourse analysis, etc. as well as historical and socio-technical analyses. The book is organised around three main topics: Expressions and Genres, Mobilisations and Engagements, Circulation and Infrastructures. The first part explores the semiotics of virality, the diverse and creative forms of expression, specific genres, the relation to other media and the affective side of virality such as using humour or provocation. The second part focuses on the political dimension of memes and viral content and their use in the context of controversy or political and ideological opposition. Finally, the third part delves into the often understudied but essential side of virality by examining the role of platforms and their curation in short, the infrastructural dimension of virality. These three parts allow us to question such fundamental notions linked to virality as, among others, circulation, reception, economy of attention, instrumentalisation and affect. This volume brings together authors from various

disciplines including semiotics history information and communication sciences computer science digital humanities media studies In addition the contributors approach the question via case studies that allow for a perspective that is not exclusively US and European centred Some chapters explore virality in Brazil Chile while the book also examines a wide variety of platforms YouTube Twitter Instagram TikTok video game platforms etc **The Pragmatics of Internet Memes** Chaoqun Xie,2022-05-15 What is a meme What is in a meme What does living in with memes actually mean What do memes mean to human beings dwelling in a life world at once connected and fragmented by the internet and social media Answers to and ways of answering these and other meme questions that arise in social events represent human assistance in or resistance to meaning making A pragmatic perspective on internet memes as a way of seeing in social life experience offers a unique window on how meme matters in mediated inter actions turn out to be inextricably intertwined with human beings presencing and essencing in the life world Ultimately this volume seeks to reveal what and how serious if not unsayable concerns can be concealed behind the seemingly humorous carefree and colorful carnival of internet memes across cultures contexts genres and modalities This book will be of some value to anyone keen on the dynamics of memes and internet pragmatics and on critical insights that can be garnered in kaleidoscopic multimodal communication Originally published as special issue of Internet Pragmatics 3 2 2020 Film Authorship in Contemporary Transmedia Culture Wikanda Promkhuntong,2025-10-01 Film Authorship in Contemporary Transmedia Culture The Paratextual Lives of Asian Auteurs examines film authorship in the transmedia era whereby film directors have become public figures through a wide range of textual material and performative practices The book draws on the notion of paratext and its related term palimpsest to bring forth the idea of self reflexive authorship as a method of examining the mediated past present and afterlife of East Asian filmmakers The first part of the book pays attention to materials surrounding film festivals multi platform distribution and cinephile fan creative practices which have been created rewritten and shared to foster and problematize the reputations of selected filmmakers The second part examines alternative modes of self projections and creative productions that address the filmmakers sense of selves and relations with the industry and the public Across different chapters discourses surrounding film authorship and East Asian cinema are revisited and expanded to highlight its multiple histories and possible futures **Genes Vs.
