## On Condition Of Anonymity Volume 1:

**Chinese Military Strategy in the Third Indochina War** Edward C. O'Dowd,2007-04-16 This well researched volume examines the Sino Vietnamese hostilities of the late 1970s and 1980s attempting to understand them as strategic operational and tactical events The Sino Vietnamese War was the third Indochina war and contemporary Southeast Asia cannot be properly understood unless we acknowledge that the Vietnamese fought three not two wars to establish their current role in the region The war was not about the Sino Vietnamese border as frequently claimed but about China's support for its Cambodian ally the Khmer Rouge and the book addresses US and ASEAN involvement in the effort to support the regime Although the Chinese completed their troop withdrawal in March 1979 they retained their strategic goal of driving Vietnam out of Cambodia at least until 1988 but it was evident by 1984-85 that the PLA held back by the drag of its Maoist

organization doctrine equipment and personnel was not an effective instrument of coercion Chinese Military Strategy in the Third Indochina War will be of great interest to all students of the Third Indochina War Asian political history Chinese security and strategic studies in general
