Chef Alain has provided a wonderful introduction for some and resource for others wanting to expand their knowledge of GM foods. He's written an accurate account of the beginning of the GMO takeover of our food system while disproving the seed oligarchies propaganda and myths and covering the many health concerns that are constantly present in our grocery stores. It covers the many important facts that are part of this issue I wish for anyone trying to gain more knowledge of their food to read this book. Birke Baehr Internationally known Youth Food Advocate Author Public Speaker and Future Farmer in organic and sustainable farming practices at Birke on the Farm. As a chef Alain Braux has a deep appreciation for good tasting nutritious and sustainably produced food. At the same time he has a deep concern for foods that pose risks to our health and the environment such as genetically engineered foods. He clearly expresses his concerns in *GMO 101 A Practical Guide to Genetically Engineered Food*. In this comprehensive book Chef Alain describes the history of genetically engineered foods how they are made and most importantly how they threaten our health. He also lists in incredible detail the foods and ingredients that are derived from GMOs. In order to stop this uncontrolled experiment on our food more and more people must become aware of this threat. *GMO 101 A Practical Guide to Genetically Engineered Food* is an excellent tool to learn about GMOs and to avoid them.
