### **Robotic Technology, Artificial Intelligence and the 4IR Libraries** Adeyinka Tella, Omwoyo Bosire

Onyancha, 2025-10-14 This book addresses the challenges associated with information provided in the 4th Industrial Revolution 4IR and the attendant opportunities that arise for libraries and other information services. Robotic technology and artificial intelligence are key developments in the information age with tremendous impact on the way information is processed and used by both information professionals and users including information service providers such as librarians. Information professionals practitioners and users will find this book useful in their endeavor to use the emerging technologies to improve their operation and find and access specific information easily. It describes what needs to be done by librarians to stay relevant and functional in the wake of change and addresses the necessary new skills needed by information professionals to be able to deliver effective services in the 4IR.

### *Higher Education for Good* Laura

Czerniewicz, Catherine Cronin, 2023-10-25 After decades of turbulence and acute crises in recent years how can we build a better future for Higher Education. Thoughtfully edited by Laura Czerniewicz and Catherine Cronin this rich and diverse collection by academics and professionals from across 17 countries and many disciplines offers a variety of answers to this question. It addresses the need to set new values for universities trapped today in narratives dominated by financial incentives and performance indicators and examines those wicked problems which need multiple solutions. Resolutions, experiments and imaginaries. This mix of new and well established voices provides hopeful new ways of thinking about Higher Education across a range of contexts and how to concretise initiatives to deal with local and global challenges. In an unusual and refreshing way the contributors provide insights about resilience tactics and collective actions across different levels of higher education using an array of styles and formats including essays, poetry and speculative fiction. With its interdisciplinary appeal this book presents itself as a provocative and inspiring resource for universities students and scholars. Higher Education for Good courageously offers critique, hope and purpose for the practice and the trajectory of Higher Education.
