EDUCATION 6.0 KHRITISH SWARGIARY, 2026-01-01 As the author of Education 6 0 Envisioning the Symbiotic Future of Learning and Innovation I am profoundly humbled and inspired to present this work at a pivotal moment in human history We stand on the threshold of an era defined by unprecedented technological convergence where artificial intelligence quantum computing bio digital interfaces and regenerative systems are reshaping not only industries but the very essence of how we learn create and coexist with intelligent machines Education 6 0 as envisioned in these pages represents a bold forward looking paradigm that extends beyond the human centric resilience of Education 5 0 and Industry 5 0 It embraces a symbiotic future in which humans and advanced technologies co evolve ethically sustainably and equitably to address grand challenges like climate crises skill obsolescence and global inequities This book emerges from my deep passion for educational transformation informed by years of research into emerging technologies pedagogy and policy Drawing on historical trajectories from ancient gurukuls and hierarchical rote systems to the digital integrations of Education 3 0 and 4 0 I propose Education 6 0 as a holistic framework aligned with the nascent visions of Industry 6 0 Central to this is the original LIKEMS framework Leadership Innovation Knowledge Skills Industry Manufacturing Maker Centered Practices Entrepreneurship and Sustainability designed to cultivate sovereign learners who lead ethical innovation harness symbiotic intelligence and steward planetary resources Written amid rapid advancements as of late 2025 this volume synthesizes empirical evidence real world implementations and speculative yet rational projections to guide educators policymakers researchers and innovators My hope is that it sparks collaborative action toward learning ecosystems where technology amplifies human potential without diminishing agency empathy or well being Education 6 0 is not merely an adaptation to change it is a call to co create a harmonious innovative world for generations to come KHRITISH SWARGIARY AKA KS Luminar Assam India Jan 2026

A New Approach to Reading Videogames as Story Thomas Rowland, 2026-01-27 This book introduces a new methodology for understanding videogames with particular attention to three types of videogames toy games storybook games and ludonarratives This methodology pulls from phenomenological and deconstructionist roots informed by medieval studies and the history of reading to emphasize how important playing stories can be as a form of narrative This book explores the idea of storyplaying in connection with new ideas on intramersive movement game mechanics and sacred play to develop a typology of videogames that will enable critics educators and theorists to situate videogames within a broad continuum of literary history Building on this foundation this book continues by exploring additional facets of this methodology by exploring the relationship between videogames and film criticism the emerging art world of game mediated photography the various economies constructed around videogames the potential of games to serve as third places and some suggestions for videogames in the classroom These ideas are contextualized by the author's argument that videogames serve a purpose akin to the original function of medieval cathedrals as intentional virtual spaces

with dedicated and important meditation which given today's decadent cultural and political climate underscores the urgency of recognizing videogames as being vital to our scholarly and educational enterprises

Metaverses: Reshaping Law, Economy, and Society Andrea Borroni, Guido Perboli, Gian Maria Piccinelli, 2026-01-02. This volume offers an in depth analysis of the metaverse and its implications with other more advanced technologies through an interdisciplinary approach that bridges the social sciences with the hard sciences. The interaction among the latest technologies emerges as a pivotal element of contemporary transformation, marking the transition to a new era in which the boundary between the real and the digital becomes increasingly blurred while the physical dimension progressively yields space to the immaterial. This scenario raises issues of great theoretical and practical significance, prompting questions about the future of human interactions, economic dynamics and governance models. The contributions gathered in this volume explore the critical implications and challenges that arise across different fields of knowledge, offering a nuanced reflection on the relationship between law, economics and technological innovation. Through a multiplicity of perspectives, the text outlines the contours of a constantly evolving digital ecosystem with profound repercussions for society, ethics and institutions.

Step into the Metaverse Mark van Rijmenam, 2022-04-29. An incisive glimpse into the future of the internet. In *Step into the Metaverse*, How the Immersive Internet Will Unlock a Trillion Dollar Social Economy, future tech strategist, entrepreneur and thought leader Dr Mark van Rijmenam delivers a startlingly insightful discussion about how the world as we know it will fundamentally change as the physical and the digital worlds merge into the metaverse, impacting the everyday experiences of people, companies and societies. The author maps out the extraordinary opportunities and challenges facing business leaders, consumers, regulators, policymakers and other metaverse stakeholders trying to navigate the future of the Internet. In the metaverse, you can be who you want to be, where you want to be, and companies and consumers are only restricted by their own creativity. How they can benefit from the immersive internet. With engaging commentary on issues ranging from avatars, identity and digital fashion to non fungible tokens, NFTs, blockchain and the economics of the metaverse, this book also offers discussions on the importance of an open and interoperable metaverse, build on the web 3.0 paradigm if we want to reign in the control of Big Tech over our identity, data and lives. Explorations of the enormous and largely untapped potential for metaverse entertainment including gaming, music, media and sports, and how brands can engage with their customers in novel ways, and how digital twins will
