study of groupwork in primary classrooms Published during the 1980s the study described in detail the daily life of the primary classroom the teaching styles used by teachers and the responses of pupils That research has now been replicated with over two thirds of the schools originally studied being revisited using the same tests and observation instruments This book presents the findings of this second round of research and is therefore unique in being able authoritatively to document the changes or lack of them in primary education and teaching practice over the last twenty years      **InfoWorld**
