The Metaphorical Use of Language in Deuterocanonical and Cognate Literature Markus Witte, Sven Behnke, 2014-12-17
Metaphors are a vital linguistic component of religious speech and serve as a cultural indicator of how groups understand themselves and the world The essays compiled in this volume analyze the use function and structure of metaphors in Jewish writings from the Hellenistic Roman period including the works of Philo and the texts of Qumran as well as in apocryphal early Christian texts and inscriptions *Römische Rhetorik: Ciceros Reden gegen Verres und Catilina - Lehrerband*

Letters Bernhard Oestreich, 2016-10-28 Receiving a letter from Paul was a major event in the early churches Given the orally oriented culture of the time a letter was designed to be read out loud in front of an audience The document was an intermediate state for the local transport of the message but the actual medium of communication was the performance event This event was embedded in the written text in a manner comparable to a theater script After careful preparation because of high expectations from ancient audiences a presenter embodied the message with his voice gazes and gestures and made it not only understood but jointly experienced After presenting a short history of performance criticism this book clarifies what is meant by the highly ambiguous term performance and develops steps to analyze ancient texts in order to find and understand the embedded signals of performance This leads to a critical assessment of the potential of performance criticism as a method Then the method is applied to the Pauline Epistles and other early Christian letters It proves to be highly rewarding difficult passages become comprehensible new aspects come to light the text s impact on the audience is felt in short the texts come alive *Ausfürliches lateinisch-deutsches und deutsch-lateinisches handwörterbuch ...* Karl
