Digital Tools for Academic Branding and Self-Promotion Cabrera, Marga, Lloret, Nuria, 2016-10-31 Reputation can be a pivotal factor to potential success throughout one's academic career. By utilizing available technological assets and tools, professionals can effectively manage their personal brands. *Digital Tools for Academic Branding and Self-Promotion* is an authoritative reference source for the latest research on the interrelationship between digital branding and academic reputation. Showcasing relevant digital platforms and techniques, this book is a compendium of vital material for academics, professionals, practitioners, and marketers interested in effective reputation management.

Trauma, Resilience, and Health Promotion in LGBT Patients Kristen L. Eckstrand, Jennifer Potter, 2017-06-05 This book has two goals: to educate healthcare professionals about the effect of identity-based adversity on the health of their LGBT patients and to outline how providers can use the clinical encounter to promote LGBT patients' resilience in the face of adversity and thereby facilitate recovery. Toward this end, it addresses trauma in LGBT populations, factors that contribute to resilience both across the lifespan and in specific groups, and strategies for promoting resilience in clinical practice. Each chapter includes a case scenario with discussion questions and practice points that highlight critical clinical best practices. The editors and contributors are respected experts on the health of LGBT people, and the book will be a first of its kind resource for all clinicians who wish to become better educated about and provide high-quality healthcare to their LGBT patients.

Disease Prevention and Health Promotion in Developing Countries Abdesslam Boutayeb, 2020-01-02 This book brings together two important discussions in public health in developing countries: an understanding of the burden of disease, health equity, and social determinants of health; and biomathematical models, epidemiological studies, and estimation of the direct and indirect cost of disease. The empirical chapters in the first part discuss aspects of disease prevention and health promotion in developing countries with a particular focus on countries that are part of the World Health Organization's Eastern Mediterranean Region and the African Region. Health equity and social determinants of health constitute a cornerstone of this book, with the widespread recognition that addressing the social determinants of health is crucial not only for improving general health but importantly for reducing unfair and remediable health inequalities. Using mathematical models, epidemiological studies, and statistical estimation of costs, the second part of this book shows the opportunities that exist for developing countries to prevent disease and promote health by adopting cost-effective strategies and cost-benefit analyses.

Systematic Approaches to Mental Health Care and Promotion Bach Tran, Roger C. Ho, Brian James Hall, 2020-06-05 Globally, mental health problems remain as one of the largest contributors to the population burden of diseases. According to WHO, common mental disorders including depression and anxiety affect the health of about 9% of the world's population and account for over 10% of the total years lived with disability. In many parts of the world, the number of people with mental health disorders has been increasing, fueled by a rapid population growth and aging, as well as urbanization and immigration.

It is estimated that 80% of these non fatal diseases occurred in low and middle income countries However in such settings coverage of both preventive and curative services is still very limited Diversity in socio cultural backgrounds and limited capacity of local health care systems are emphasizing the importance of systematic approaches to understanding and intervening in the issue Although the social economic and health burden of mental health issues are substantial effectiveness of policies and interventions is varied across regions and largely driven by contextual factors Evidence based prevention and treatment approaches involve the synthesis of epidemiological surveys assessment of clinical populations e g chronic medical diseases chronic psychiatric illnesses and studies exploring the role of biological markers in psychiatric illnesses This Research Topic aims to introduce the latest research findings on the application of system thinking in Mental Health Care and Promotion

A Book For PSU General Insurance Officer's Promotion Examination (Useful For Brokers/ IMF/ Corporate Agent Examination Also) Sudhir Kumar Jain, This book is especially written for the PSU general insurance Officers for their promotion examination but also useful for the Insurance intermediaries like Brokers Insurance Marketing Firm IMF and Corporate Agents The division of chapters is based on the pattern of examination The contents of each chapter are written precisely and simple language to understand easily The experience to write this book is gained by providing coaching to Officers from various States i e Punjab Haryana Himachal Pradesh and J K during the last 9 years at Chandigarh and Ludhiana Every year more than 100 officers have joined the coaching and passing result is impressive i e not less than 100% by reading my study material and question bank to them ear The study material provided during coaching was appreciated by all which inspired me to convert into book At the end of each chapter objective type questions including practical questions are provided which is covering all features of the policies While writing this book all latest amendments in Insurance Act Various Insurance regulations have been incorporated
