Requirements for an Mdm Solution Vicki McCracken,2016-11-09 Working on Requirements for a Master Data Management solution and looking for thoughts on how to approach the requirements The focus of this guide is to highlight a proven approach for requirements gathering and documentation for Master Data Management solutions Requirements gathering and documentation activities are similar regardless of the type of project What differs is the approach the emphasis of specific activities and the content of work products MDM projects do not come along often this guide can serve as a roadmap for how to approach requirements for an MDM solution The guide begins with a brief overview of Master Data Management The guide then steps through the requirements activities and work products for each Solution Development Lifecycle phase The requirements work products are described along with an example of each work product Below is a summary of the phases and primary work products produced Alignment where the Business Requirements including solution Features are defined Solution Scoping where the Solution Requirements including Information Requirements Business Rules and Epics Functions are defined Functional Requirements where a given Epic Function is elaborated on including inputs outputs data updates business rules an activity diagram and associated User Stories User Stories where Acceptance Criteria is defined Keys to success are identified for the

various phases In addition for Solution Scoping there is a section which focuses on how to approach plan and track Solution Scoping Finally there is an overview of Change Management and Traceability The Guide contains 44 illustrations 32 of which are examples of work products It includes many visual work products which help to ensure a consistent understanding of the solution The guide assumes some familiarity with requirements gathering techniques and work products it does not focus on techniques The guide demonstrates how to structure the various requirements activities to successfully gather and document requirements for an MDM solution The guide also does not focus on formulating an MDM Business Case MDM Architecture or technical system requirements The guide is intended to assist requirements analysts in formulating an approach for how to gather and document requirements for a Master Data Management solution
