Measurement And Evaluation For Health Educators:

Measurement and Evaluation for Health Educators Manoj Sharma, Rick Lingyak Petosa, 2014 Measurement and Evaluation for Health Educators prepares health educators for the responsibilities of conducting evaluations within their field. It includes psychometric, statistical, political, managerial, and public health perspectives to measurement and evaluation. Written for the undergraduate or beginning graduate student as well as practicing professions, this text will help readers choose and develop instruments for evaluation and discusses the basics for carrying out evaluations to gauge the effectiveness of health education and health promotion programs. Measurement and Evaluation for Health Educators also delves into the basics of measurement steps in instrument development, reliability assessment, validity assessment, measurement errors, process evaluation, designs for quantitative evaluation, and much more. Key Features: Student friendly, accessible writing style. Each chapter closes with review questions and web references. Chapter objectives and key learning objectives are clearly defined. Includes skill building activities in every chapter. Boxed articles throughout the text highlight important issues in the field. Measurement and Evaluation in Health Education and Health Promotion Lawrence W. Green, Frances Marcus Lewis, 1986 **Measurement and Evaluation of Health Education** Mark B. Dignan, Robert M. Goodman, 1995-01-01 **Measurement and Evaluation of Health Education** Mark B. Dignan, 1989 **Evaluation and Measurement in Health Promotion** Manoj Sharma, R. Lingyak Petosa, 2023-01-18 A thorough and accessible introduction to data collection, analysis, and reporting for the health promotion field. Evaluation and Measurement in Health Promotion guides current and future health promoters in becoming experimenting practitioners who take a data-driven approach to decision making. Through this model, professionals can create innovative health programs rooted in measured fact. Such programs must be continuously evaluated and improved upon, and this book covers both the measurement and evaluation stages. The result is a comprehensive model that takes a rigorous approach to the health promotion process, its concrete impact in the world, and the evaluation of its outcomes. Topics covered include evaluation planning, measurement instrument development, reliability, validity assessment, evaluation design, approaches to qualitative evaluation, data analysis, interpretation, and report writing. Health promotion is essential to improve community health and prevent disease. In the field of health promotion, we empower individuals and communities to prevent health problems and pursue quality of life by addressing behavioral and social determinants of health. For those looking for a framework to approach the goals of health promotion, including those taking the CHES, MCHES, or CPH exams, this straightforward book is a valuable resource. Get an introduction to the field of health promotion and the process of evaluating health promotion programs. Develop rigorous instruments for measuring various types of outcomes in health promotion programs. Assess the reliability and validity of evaluation instruments and address measurement errors. Conduct quantitative analysis and qualitative data analysis and write effective research reports. This book includes tools to help both instructors and learners, including succinct chapter
