Historically or so we would like to believe the story of everyday life for many people included regular definitive moments of news consumption Journalism in fact was distributed around these routines papers were delivered before breakfast the evening news on TV buttressed the transition from dinner to prime time programming and radio updates were centred around commuting patterns These habits were organized not just around specific times but occurred in specific places following a predictable pattern However the past few decades have witnessed tremendous changes in the ways we can consume journalism and engage with information from tablets to smartphones online and so forth and the different places and moments of news consumption have multiplied as a result to the point where news is increasingly mobile and instantaneous It is personalized localized and available on demand Day by day month by month year by year technology moves forward impacting more than just the ways in which we get news These fundamental shifts change what news is This book expands our understanding of

contemporary news audiences and explores how the different places and spaces of news consumption change both our experiences of journalism and the roles it plays in our everyday lives This book was originally published as a special issue of Journalism Studies UNITED STATES POLITICAL SCIENCE DOCUMENTS Volume Thirteen 1987 part 2 Document Descriptions ,1988 IATSS Research Kokusai Ko(tsu(Anzen Gakkai,1979 **United States Political Science Documents** ,1991 **Current Index to Journals in Education** ,1975 The Management of Information and Communication Technologies Robin Mansell,1994 *Design of Computing Systems: Social and ergonomic considerations* Michael James Smith,Gavriel Salvendy,Richard J.
