Media Transparency In China Rethinking Rhetoric And Reality:

Media Transparency in China Baohui Xie, 2017-03-15 This book argues that the gap between the official transparency rhetoric and the censorship reality has demonstrated the discrepancy between what the Party is and what it claims to be. Such a discrepancy is manifested by the reality that the reformed news industry, a hybrid of market oriented commercialization and party state control, has largely failed to deliver either the voice of the disenfranchised groups or the value of journalism. To observe the discrepancy, this book investigates the role of transparency in the Chinese news media. Media transparency, which goes beyond the issue of censorship and press freedom, has been undermined by the consensus reached between the party state and the media on political and market control. It is this mutually accommodating and benefiting scheme between power and profits that has been hollowing out the substance of the transparency rhetoric and distorting the Marxist idea of press freedom as freedom for all. This book argues that the cause of such a gap between rhetoric and reality is rooted in the disjuncture of political representation of both the party state and the profit seeking media.

Ethics of Documentary Film Agnieszka Piotrowska, 2025-07-30 Documentary film has been an important vehicle to interrogate the world since the inception of film more than a hundred years ago. *The Ethics of Documentary Film* reformulates some of the foundational notions in documentary films studies and practice relating to archive and the production of knowledge. Published in a particular moment in time post pandemic and in the middle of the climate change debates and the traumas of new conflicts in the world, it gives voice to all of the important contemporary debates and offers ideas about different international approaches to documentary. With particular focus on the question of to what extent a documentary film can be defined as an ethical project, the various contributions look at issues of history, the hidden stories, and issues of the ethics of representation to provide new insights into the role documentary film can play within society.

The Other Digital China Jing Wang, 2019-12-10 A scholar and activist tells the story of change makers operating within the Chinese Communist system whose ideas of social action necessarily differ from those dominant in Western liberal societies. The Chinese government has increased digital censorship under Xi Jinping. Why? Because online activism works, it is perceived as a threat in halls of power. In *The Other Digital China*, Jing Wang, a scholar at MIT and an activist in China, shatters the view that citizens of nonliberal societies are either brainwashed or complicit, either imprisoned for speaking out or paralyzed by fear. Instead, Wang shows the impact of a less confrontational kind of activism. Whereas Westerners tend to equate action with open criticism and street revolutions, Chinese activists are building an invisible and quiet coalition to bring incremental progress to their society. Many Chinese change makers practice nonconfrontational activism. They prefer to walk around obstacles rather than break through them, tactfully navigating between what is lawful and what is illegitimate. *The Other Digital China* describes this massive gray zone where NGOs, digital entrepreneurs, university students, IT companies like Tencent and Sina, and tech communities operate. They study the policy winds in Beijing, devising ways to press their case.

without antagonizing a regime where taboo terms fluctuate at different moments What emerges is an ever expanding networked activism on a grand scale Under extreme ideological constraints the majority of Chinese activists opt for neither revolution nor inertia They share a mentality common in China rules are meant to be bent if not resisted **China-India Relations** Young-Chan Kim,2020-05-27 This book examines India China relations throughout history as well as in the context of current business cooperation and competition It also explores geo political and societal factors such as religion or class models that influence and shape bilateral relations and provides thorough analyses and comparisons of networks between the two countries This book will appeal to researchers and graduate students interested in India China relations as well as Chinese and Indian business ties **How Disinformation Ruins Public Diplomacy** Juan Luis Manfredi Sánchez,2025-05-12 How Disinformation Ruins Public Diplomacy evaluates and analyzes how Chinese and Russian public diplomacy strategies differ from the existing academic literature and debates specifically in the context of the new disinformation era In the context of mediatized public diplomacy disinformation and deglobalization this book asks do China Russia and new emerging powers take advantage by employing values and techniques attributed to public diplomacy What if goals dialogue and cooperation are settled on an unfair basis false content meddling and institutional erosion Can their repertoire of actions be considered public diplomacy And if their initiatives are not public diplomacy what impact do their actions have on the theoretical construction of the discipline While using China and Russia as the two main case studies in order to develop a new theory this book covers other relevant cases on the management of public diplomacy for other purposes The case of Turkey provides a model of transformation and adaptation of public diplomacy with Erdogan s hyper leadership built on anti Western rhetoric and the emergence of a new Ottomanism The case of India explores Modi s creation of an ethnically branded democracy which places Hinduism at the heart of political decisions In the case of Morocco its positioning in religious dialogue the establishment of relations and political normalization with Israel and territorial unity Western Sahara are explored Exploring how authoritarian powers abuse the global disinformation order to achieve their public diplomacy goals this book will be of great interest to students and scholars of international relations politics public diplomacy communication studies and social theory In the professional sphere it will also appeal to politicians diplomats foreign policy makers think tanks journalists and foreign correspondents Electronic Government Hans Jochen Scholl,J.
