**MI5, British Security Service Operations, 1909-1945** Nigel West, 1981 Den britiske journalist West har specialiseret sig i efterretnings og spionageemner MI5s virksomhed beskrives med mange eksempler og med vgt p 2 Verdenskrig MI5 Nigel West, 1983

**Soviet and Nazi Defectors** Nigel West, 2024-12-30 Analyzes nine wartime and postwar defections highlighting motivations risks and counter intelligence significance A well informed defector is the most dangerous counter intelligence commodity because it takes a spy to catch a spy Very occasionally an agent especially a mole or an intelligence professional will make a mistake and incriminate themselves but usually it is a denunciation a tip or a vague clue from a defector that will provide the vital information required to expose the source of a leak Relying on recently declassified intelligence files and interviews with defectors their handlers their families and their victims Nigel West has analyzed nine examples of wartime and postwar defections to shed new light on the phenomenon Defectors are notoriously difficult to handle and resettle because of the range of genuine or invented motives that led them to take such drastic action Some will provide a noble political motive seeking to impress their host while others may be driven by less worthy compulsions perhaps greed revenge career disappointment envy anger or nothing more complicated than a desire to start a life afresh with a different partner Defectors are the stock in trade for all counter intelligence specialists who seek the background and context of corridor gossip and water cooler chat cannot be substituted by any amount of technical surveillance overhead reconnaissance or hard to interpret intercepted communications This is the essence of Human Intelligence and goes to the heart of loyalty trust betrayal and deception the very DNA of espionage These nine examples of switching sides all involve intelligence professionals who followed the example of Erich Vermehren Because of his religious convictions Vermehren felt compelled to desert the Abwehr in January 1944 even though this meant the arrest of his parents and siblings who were consigned to Sachsenhausen concentration camp West traced Vermehren then living under an alias in Switzerland to hear his story first hand He then interviewed the British MI6 officer who had engineered the covert exfiltration from Istanbul of both the German and his wife Sometimes a defection may be the result of a period of cultivation as happened with Vladimir Petrov who was gently persuaded over many months by his Polish dentist to abandon his clandestine role as resident in Canberra for a chicken farm The intermediary Dr Michael Bialoguski admitted to the author that right up to the moment of his defection he and his Australian Security Intelligence organization colleagues were not entirely sure of Petrov s true status Once resettled a defector s life has daily challenges as was explained by Yuri Rastvorov s widow herself a CIA counter intelligence officer who recalled the day she had to tell their two daughters that their father was not a Czech tennis coach but an NKVD defector who had been based in Tokyo

**China's Spies** Nigel West, 2025-05-30 While many of President Xia Jinping s increasingly aggressive foreign policies manifested by expansion into the South China Sea trade confrontation with Australia and political suppression in Hong Kong have become obvious there has been a covert dimension that has gone

largely unreported outside the Allied intelligence community Beijing's Ministry of State Security or MSS has increasingly shifted its priorities to hostile penetration of the CIA That this is the case has been demonstrated by the recent cases of individuals such as Glenn Shriver Jerry Chun Shing Lee Ron Rockwell Hansen Kevin Mallory Dickson Yeo and Alexander Yuk Ching Ma Of these Shriver an American student studying in China became as the FBI itself points out a target of Chinese intelligence services and crossed the line when he agreed to participate in espionage type activity For his actions in 2019 Ron Rockwell Hansen a former Defense Intelligence Agency officer pleaded guilty to attempting to spying for the People's Republic of China and was sentenced to ten years in prison Similarly Jerry Chun Shing Lee a former CIA case officer was sentenced to nineteen years in prison for conspiring to communicate deliver and transmit sensitive US information to the People's Republic of China Hitherto the MSS had concentrated at the direction of the Chinese Communist Party on the collection of foreign technology and proprietary information while also monitoring political dissidents Tibetan and Taiwanese nationalists and Uyghur and Falun Gong religious activists The MSS also tended to recruit ethnic Chinese and were less interested in the collection of political intelligence or mounting influence operations However as Nigel West reveals the MSS has undergone a radical change in doctrine and having consolidated its grip on supposedly independent commercial joint ventures and academic research institutions is leveraging control over these ostensibly legitimate enterprises to access intelligence agencies now perceived as adversaries such as the CIA and FBI As the rhetoric and tensions between the West and China mounts and with the current US administration calling America's relationship with Beijing the biggest geopolitical test of the 21st century China's unseen espionage offensive is one of the most serious developments in recent times Its extent and effectiveness are explored in this absorbing and chilling new exposé

**Shots in the Dark** Jadwiga Biskupska, Sara B. Castro, 2025-09-02 Brings together geographies and methodologies often kept apart by the difficulties of researching such a broad ranging topic as the war Shots in the Dark offers cutting edge scholarship across different subfields in World War II history revealing new insights into how this crucial conflict was planned experienced and fought Twelve chapters demonstrate the broad scope of wartime innovation and how the war functioned as a global turning point driving change at all levels of human society from government institutions to individual identities Contributors collaborated in a vibrant workshops series sponsored by the North American branch of the Second World War Research Group SWWRGNA an organization that emerged to nurture scholarship on the global war and unite scholars fragmented in narrower regional and methodological stovepipes to consider the war as a whole The SWWRGNA and this volume showcase the work of diverse historians across subfields operational cultural gender social intelligence and diplomatic history This approach exposes the Second World War as a catalyst for overlapping global changes that revolutionized the world after 1945 These scholars reveal continuities and parallels in wartime experiences that would remain invisible in narrowly focused projects The volume establishes three frameworks for understanding and interpreting changes the war provoked 1 institutional adaptation 2

totalization or the militarization of civilians and 3 cultural transformation Each of the three frameworks is explored from four vantage points Geographies are deliberately contrasted within each framework to examine the broad scope of that level of war driven change

**MI5: British Security Service Operations, 1909-1945** Nigel West, 2019-04-30 The author of *The Kompromat Conspiracy* shares the history of MI5 from its beginnings in 1909 to 1945 and its role in the Second World War MI5 is arguably the most secret and misunderstood of all the British government departments Its enigmatic title much more than its proper name the Security Service stands in the public mind for the dark world of the secret services In reality it has a very specific responsibility counterintelligence Its purpose is to combat espionage and subversion directed against the UK Nigel West's book traces the history of MI5 from its modest beginnings in 1909 until 1945 focusing on the important role it played in World War II This includes the story of the sixteen enemy agents rounded up in Britain who were either hanged or shot the manipulation of the Axis espionage networks by the use of turned Abwehr agents the famous Double Cross System and the all important check on its success provided by the intercepted German signals decoded at Bletchley and the various deceptions practiced on the German High Command Laced with true anecdotes as bizarre and compulsively readable as any John Le Carr novel this book is the fruit of years of painstaking research West has traced and interviewed more than a hundred people who figure prominently in the story German and Soviet agents counterintelligence officers and even more than a dozen double agents In this newly revised edition Nigel West details the organizational charts which show the structure of the wartime security apparatus in the most accurate and informative account ever written of MI5 before and during the Second World War

**Her Majesty's Secret Service** Christopher M. Andrew, 1986 Classified! Nigel West, 2024-02-29 Over the past fifty years Nigel West has been involved in almost every espionage related investigation breakthrough or revelation that you can think of His molehunts have led to the unmasking of spies within MI5 MI6 and the CIA and the identification of numerous others some of whom were crucial to the Allied victory in the Second World War and would have died without any public recognition if not for him His first encounter with the intelligence community was a lecture given at his school by John le Carr the guest of a Benedictine monk who had recently retired from MI6 Later West worked as a researcher for SOE agent Ronnie Seth who was sentenced to death by the Nazis after being captured during Operation blunderhead and exposed two of the Cambridge spies recruited by Anthony Blunt For the fortieth anniversary of the D Day landings West traced the double agent codenamed garbo and brought him to London so he could be decorated at Buckingham Palace As action packed as the lives of the spies he has written about this is the story of the most enthralling and significant post war intelligence revelations as told by Britain's most authoritative writer on espionage and the secret services

*The SIGINT Secrets* Nigel West, 1988 *Double Cross in Cairo* Nigel West, 2015-01-20 As part of the infamous Double Cross operation Jewish double agent Renato Levi proved to be one of the Allies most devastating weapons in World War Two In 1941 with the help of MI6 Levi built an extensive spy ring in North Africa and the Middle East But most

remarkably it was entirely fictitious This network of imagined informants peddled dangerously false misinformation to Levi's unwitting German handlers His efforts would distort any enemy estimates of Allied battle plans for the remainder of the war His communications were infused with just enough truth to be palatable and just enough imagination to make them irresistible In a vacuum of seemingly trustworthy sources Levi's enemies not only believed in the CHEESE network as it was codenamed but they came to depend upon it And by the war's conclusion he could boast of having helped the Allies thwart Rommel in North Africa as well as diverting whole armies from the D Day landing sites He wielded great influence and as a double agent he was unrivalled Until now Levi's devilish deceptions and feats of derring do have remained completely hidden Using recently declassified files *Double Cross in Cairo* uncovers the heroic exploits of one of the Second World War's most closely guarded secrets **MI5** Nigel WEST,1981 **Secret Service** Christopher M. Andrew,1985 **Keesing's Contemporary Archives** ,1982 *MI5* Nigel West,1982 MI5 is arguably the most secret and most misunderstood of all government departments Its enigmatic title much more than its proper name the Security Service stands in the public mind for the dark world of the secret services in general In reality it has a very specific brief counter intelligence Its object is to combat espionage sabotage and subversion directed against the UK Nigel West's book traces the history of MI5 clearly and accurately from its modest beginnings in 1909 until 1945 Many of its operations both at home and abroad are described for the first time Source inconnue *The Spying Game* Michael Smith,2003 Espionage exerts a hold on the public imagination The Spying Game covers economic intelligence and the fight against organised crime as well as the activities of MI5 MI6 the Defence Intelligence Staff and GHQ *A Spy's Revenge* Richard V. Hall,1987 *Security and Special Operations* Christopher J. Murphy,2006-10-10 *Security and Special Operations* offers the first comprehensive history of the Security Section of the Special Operations Executive and its relationship with MI5 during the Second World War The book makes extensive use of recently declassified files in order to examine the development of liaison between the two organizations It explores SOE's involvement with MI5's double cross operations and offers a fresh perspective on both the Englandspiel disaster in Holland and the case of the notorious agent Henri Dericourt *British Books in Print* ,1985 *Constitutional and Administrative Law* Hilaire Barnett,1998 Provides an exposition of the major features of the United Kingdom's constitution and to incorporate recent developments **Seven Spies who Changed the World** Nigel West,1991 Om syv spioner som p hver sin m de var med til at ndre verdenshistorien Blandt andet historien om den dansk tyske dobbeltspion Wulf Schmidt
