**McMap Marine Corps Martial Arts Program** Usmc,2013-12 The Marine Corps Martial Arts Program MCMAP is a combat system developed by the United States Marine Corps to combine existing and new hand to hand and close quarters combat CQC techniques with morale and team building functions and instruction in the Warrior Ethos The program which began in 2001 trains Marines and U S Navy personnel attached to Marine units in unarmed combat edged weapons weapons of opportunity and rifle and bayonet techniques It also stresses mental and character development including the responsible use of force leadership and teamwork The techniques used by MCMAP vary in degrees of lethality

allowing the user to select the most appropriate usually the least amount of force For example a Marine facing a nonviolent but noncompliant subject can use an unarmed restraint to force compliance with minimal damage and pain A more aggressive subject could be met with a choke hold or a strike Lethal force can be used on a subject as a last resort The majority of techniques can be defensive or offensive in use with or without a weapon allowing Marines flexibility in combat and operations other than war such as civil control or humanitarian missions as well as self defense

**Sustaining the Marine Corps Martial Arts Program**, 2005 Close combat is vital to the Marine Corps a service that prides itself on being able to locate close with and destroy the enemy The Marine Corps has adopted many programs designed to dispatch the enemy at close range Unfortunately programs like Close Combat Instruction CCI and the Linear In fighting Neurological override Engagement LINE system did not completely satisfy the Marine Corps needs and were virtually incompatible with other Marine Corps training programs due to their limited focus on unarmed combat only Therefore the Marine Corps Martial Arts Program MCMAP was implemented in the summer of 2000 under the direction of General James L Jones 32nd Commandant of the Marine Corps MCMAP is an integrated synergistic fighting system incorporating mental character and physical disciplines that apply across the entire spectrum of violence MCMAP is a program that offers added value to the Marine Corps both on and off the battlefield It mirrors the Marine Corps ethos and arms Marines with skills knowledge and values that will continue to be useful to them throughout their careers and lives The Martial Arts Center of Excellence should constantly sell the program whether it is to the potential recruit the gunnery sergeant with 15 years of service or the Commandant himself The leaders of the Corps at all levels must be the primary target audience and recognize the value that MCMAP brings to the table Moreover they must require MCMAP participation of themselves and all their Marines Ultimately the Marine Corps needs to reinforce its commitment to this program by implementing requirements that place the program on equal footing as other established programs such as professional military education rifle range and the PFT MCMAP may be short lived unless the Marine Corps does a better job of selling the program to all Marines establishes and enforces overdue requirements and receives the support of senior leadership
