# THE McQUAIG WORD SURVEY®

## DETERMINING AN INDIVIDUAL'S UNDERLYING TEMPERAMENT

### FAST FACTS: THE WORD SURVEY...

- *is used by over 1000 companies globally in selection & employee development*
- *measures an individual's underlying temperament*
- *provides focused behaviour-based interview questions*
- *is a self-assessment that takes 15-20 minutes to complete*
- *can be completed on-line or by pen and paper*

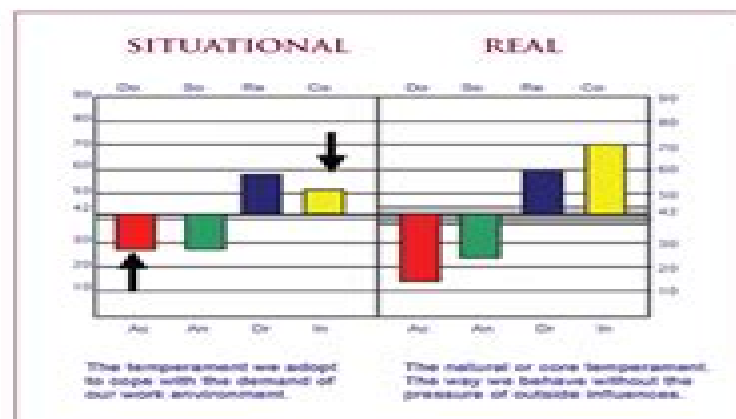

Our temperament has a significant impact on how we will perform in a given role. Temperament lays the foundation of who we are: what we find motivating or demotivating, how we interact with others, our ability to deal with pressure and adapt to new situations, etc.

Temperament embodies key traits like competitiveness, empathy, analytical thinking, sense of urgency and determination. Although most managers agree that identifying these traits is critical to making great selection decisions, they also admit to having tremendous difficulty in being able to assess them in job candidates – and even in existing staff.

### SELECTION

The Word Survey is a twenty-minute self-assessment that measures an individual's underlying temperament. It will help you more accurately predict a candidate's future on-the-job behaviours.

By comparing a candidate's Word Survey to The McQuaig Job Survey®, a profile depicting your ideal candidate, you will greatly enhance your ability to assess candidate fit.

### RETENTION AND DEVELOPMENT

Once you have made your selection, The Word Survey provides you with tools to help motivate and coach the individual. It clearly outlines the do's and don'ts when dealing with the employee and helps predict behaviour in a team setting.

The Word Survey gives you the insight you need to get the right people on the bus – and keep them there.
