Measuring Up What Educational Testing Really Tells Us

Robert M. Thorndike

Measuring Up What Educational Testing Really Tells Us:

Measuring Up Daniel Koretz, 2008-05-15 How do you judge the quality of a school a district a teacher a student By the test scores of course Yet for all the talk what educational tests can and can't tell you and how scores can be misunderstood and misused remains a mystery to most The complexities of testing are routinely ignored either because they are unrecognized or because they may be well complicated Inspired by a popular Harvard course for students without an extensive mathematics background *Measuring Up* demystifies educational testing from MCAS to SAT to WAIS with all the alphabet soup in between Bringing statistical terms down to earth Daniel Koretz takes readers through the most fundamental issues that arise in educational testing and shows how they apply to some of the most controversial issues in education today from high stakes testing to special education He walks readers through everyday examples to show what tests do well what their limits are how easily tests and scores can be oversold or misunderstood and how they can be used sensibly to help discover how much kids have learned

Measuring Up Daniel M Koretz, 2009-06-30 *Measuring Up* demystifies educational testing from MCAS to SAT to WAIS Bringing statistical terms down to earth Koretz takes readers through the most fundamental issues that arise in educational testing and shows how they apply to some of the most controversial issues in education today from high stakes testing to special education

Choice, 2009

Discovering what Schools Really Teach Lorraine McDonnell, Rand Corporation, 1990 This policy guide argues the need for improved indicators of student coursework illustrates the information that different types of measures convey outlines the key choices that need to be made about data collection and suggests ways in which states might develop more valid and useful indicators of student coursework In its broadest form coursework includes the following

- 1 the courses that schools offer
- 2 patterns of coursetaking by different types of students
- 3 the content of these courses
- 4 their objectives
- 5 instructional strategies and
- 6 teachers qualifications and experience

Examples provided are drawn from the School Reform Assessment SRA project a 2 year exploratory study undertaken in California and Georgia to design a variety of high school coursework indicators The SRA focuses on expanding and refining the technical quality of existing coursework indicators and accommodating the information needs of policymakers by providing indicators that measure the

effects of major curriculum policies Valid coursework indicators must meet the following four criteria 1 they must be linked to a larger model of the schooling process 2 they must differentiate among tracks or levels of the curriculum 3 they must distinguish between the curriculum as it is intended by designers policymakers and as it is actually implemented in schools classrooms and 4 they must measure the depth and breadth of the curriculum Statistical data are presented in three tables and nine graphs An appendix describes the SRA sample A 28 item list of references is included SLD **Photography** ,1898
