Oral Language Comprehension Preschool Essentials:

Essentials of Assessing Infants, Toddlers, and Pre-Schoolers Brittany A Dale, Joseph R. Engler, Vincent C. Alfonso, 2025-04-15 A practitioner oriented guide to the most important assessments and evaluation techniques for children ages 0-5. Many assessment professionals leave their graduate education programs without any formal training in assessing infants and young children. Although there are assessment textbooks covering subsets of this age range, *Essentials of Assessing Infants Toddlers and Pre Schoolers* is uniquely designed for busy practitioners and it covers the full range of assessments for 0-5 years old. With medical advances and new treatments there is a higher prevalence of children with complex medical and psychological needs. Additionally, changing educational policies often affect assessment practices. Assessment professionals must have current information to effectively assess young children and assist in planning interventions. As with all volumes in the *Essentials of Psychological Assessment* series, this book consists of concise chapters featuring callout boxes highlighting key concepts, easy-to-learn bullet points, and extensive illustrative material as well as test questions that help you gauge and reinforce your grasp of the information covered. Understand the issues unique to assessing children aged 0-5 years. Get expert advice on assessing children with extremely early preterm birth, genetic conditions, and other unique situations. Consider the future directions in the assessment of infants, toddlers, and preschoolers. Quickly and easily locate pertinent information and access resources and tools to aid in performing professional duties. This straightforward manual includes thorough coverage on how assessment results guide effective interventions. *Essentials of Assessing Infants Toddlers and Pre Schoolers* is a valuable addition to the libraries of developmental practitioners, school and clinical psychologists, pediatricians, speech language pathologists, and others responsible for the assessment of very young children.

Poverty Impacts on Literacy Education Tussey, Jill, Haas, Leslie, 2021-09-24. Income disparity for students in both K-12 and higher education settings has become increasingly apparent since the onset of the COVID-19 pandemic. In the wake of these changes, impoverished students face a variety of challenges both internal and external. Educators must deepen their awareness of the obstacles students face beyond the classroom to support learning. Traditional literacy education must evolve to become culturally, linguistically, and socially relevant to bridge the gap between poverty and academic literacy opportunities. *Poverty Impacts on Literacy Education* develops a conceptual framework and pedagogical support for literacy education practices related to students in poverty. The research provides protocols supporting student success through explored connections between income disparity and literacy instruction.
