**MARINE AIR-GROUND TASK FORCE (MAGTF)** - answer The Marine air-ground task force (MAGTF) is the Marine Corps' principal organization for all missions across the range of military operations, composed of forces task- organized under a single commander capable of responding rapidly to a contingency anywhere in the world.

The types of forces in the MAGTF are functionally grouped into four core elements detailed to the right.

The four core elements are categories of forces, not formal commands.

**COMMAND ELEMENT (CE)** - answerThe headquarters is the core element of a MAGTF. The command element is composed of the commander, general or executive and special staff sections, headquarters section, and requisite communications support, intelligence, and reconnaissance forces necessary to accomplish the mission. The command element provides command and control, intelligence, and other support essential for effective planning and execution of operations by the other elements of the MAGTF. The command element varies in size and composition.

**AVIATION COMBAT ELEMENT (ACE)** - answerThe aviation combat element provides all or a portion of the six functions of Marine aviation necessary to accomplish the MAGTF's mission. These functions are:

- Anti-air warfare
- Offensive air support
- Assault support
- Electronic warfare
- Air reconnaissance
- Control of aircraft and missiles

The aviation combat element is usually composed of an aviation unit headquarters and various other aviation units or their detachments. It can vary in size from a small aviation detachment of specifically required aircraft to one or more Marine aircraft wings.

**GROUND COMBAT ELEMENT (GCE)** - answerIt is usually constructed around an infantry organization but can vary in size from a small ground unit of any type to one or more Marine divisions that can be independently maneuvered under the direction of the MAGTF commander. It includes appropriate ground combat and combat support forces,
