Reading Media Theory David Maxwell Barlow, Brett Mills, 2009. This unique part reader part textbook brings core primary media theory readings to the student whilst assisting them with reading, understanding, decoding and deconstructing the material. The dual functionality of the book helps students to familiarise themselves with core texts and develop the necessary critical reading skills and confidence required to engage with the subject. The text is annotated throughout and explores context, content, structure and writing style in order to bring theory to life for the reader. The book is split into four sections namely Reading theory, Key thinkers and schools, Approaches and Media Theory in context. This structure is adopted in order to encourage students to familiarise themselves with the material and the progressive pedagogical apparatus guides them to approach it gradually whilst developing their skill set. The provision of questions to provoke further thought helps to encourage the student to read more widely around the subject and engage with core concepts of both theory and learning. Ultimately the text acts as a how to read handbook for media theory and is structured so that students can learn the literature as well as learning how to approach it.

*Journalism and Society* Denis McQuail, 2013-03-15. Every serious student of journalism should read this book. Denis McQuail has succeeded in producing a work of scholarship that shows what journalists do and what they should do. Stephen Coleman, University of Leeds. For a half century we have spoken earnestly of journalism's responsibility to society instead of to business and government. Now this concept is given sophistication unmatched by the best scholar of media theory of his generation, Clifford Christians, University of Illinois. The grand old man of communication theory presents an overarching social theory of journalism that goes beyond the usual Anglo American focus. Jo Bardoel, University of Amsterdam, ASCoR and Nijmegen. This book deals with the eternal question of how journalism is linked to society. I cannot think of a better staple food for students of journalism at all levels. Kaarle Nordenstreng, University of Tampere. This is a major new statement on the role of journalism in democracy from one of media and communication's leading thinkers. Denis McQuail leads the reader through a systematic exploration of how and why journalism and society have become so inextricably entwined and as importantly what this relationship should be like. It is a strong re-statement of the fundamental values that journalism aspires to. Written for students this book makes the theory accessible and relevant. Teaches the importance of journalism to power and politics. Explores the status and future of

journalism as a profession Outlines the impact and consequences of the digital Reveals journalism as it is but also as it should be Takes each chapter further with guided reading list and free online journal articles This textbook is the perfect answer to the how and why of journalism It is crucial reading for any student of media studies communication studies and journalism
