## **Organizational Learning Creating Retaining Transferring Knowledge:**

**Organizational Learning** Linda Argote, 1999-01-31 Why do some organizations learn at faster rates than others Why do organizations forget Could productivity gains acquired in one part of an organization be transferred to another Learning curves have been documented in many organizations in both the manufacturing and service sectors The classic learning curve model implies that organizational learning is cumulative and persists through time However recent work suggests that firms also demonstrate depreciation of knowledge or forgetting Such understanding becomes more exciting as one looks at the link between learning and productivity Organizational Learning Creating Retaining and Transferring Knowledge describes and integrates the results of research on factors explaining organizational learning curves and the persistence and transfer of productivity gains acquired through experience Chapter One provides an overview of research on organizational learning curves Chapter Two introduces the concept of organizational forgetting or knowledge depreciation Chapter Three discusses the concept of organizational memory Chapter Four argues that analyzing small groups provides understanding at a micro level of the social processes through which organizations create and combine knowledge Chapter Five describes results on knowledge transfer Chapter Six discusses various tensions and trade offs in the organizational learning process

**Organizational Learning** Linda Argote, 2012-11-14 Why do some organizations learn at faster rates than others Why do organizations forget Could productivity gains acquired in one part of an organization be transferred to another These are among the questions addressed in Organizational Learning Creating Retaining and Transferring Knowledge Since its original publication in 1999 this book has set the standard for research and analysis in the field This fully updated and expanded edition showcases the most current research and insights featuring a new chapter that provides a theoretical framework for analyzing organizational learning and presents evidence about how the organizational context affects learning processes and outcomes Drawing from a wide array of studies across the spectrum of management economics sociology and psychology Organizational Learning explores the dynamics of learning curves in organizations with particular emphasis on how individuals and groups generate share reinforce and sometimes forget knowledge With an increased emphasis on service organizations including healthcare Linda Argote demonstrates that organizations vary dramatically in the rates at which they learn with profound implications for productivity performance and managerial and strategic decision making
