Original Xerographies Bruno Munari, 2007 It is utterly forbidden to move the original during exposure because if you do the reproduction won't be exact. This is where the experimenter wonders and what happens if I move this original on the plate of glass.

BOOK JACKET Photography in Children's Literature Elina Druker, Bettina Kümmelring-Meibauer, 2023-10-15 Photography in Children's Literature is the first study that examines the wide array of artistic techniques, topics and genres used within photographic books for children. Covering a time period from the 1870s to the 1980s, the collection offers multifaceted insights into changing perceptions of children and childhood during an era when the world changed in unprecedented ways. More than sixty full color illustrations demonstrate an impressive variety of genres from ABC books, concept books and country portraits to photo reportage and poetry. By discussing photographic books from ten countries and three continents, the collection offers an international scope, providing a glimpse into the production and reception of photography in children's literature in a range of contexts and cultures. Photographic books for children thus open up new vistas for scholars interested in an interdisciplinary and transnational investigation of children's literature text and images across the centuries.

Xerography Michelle Cotton, Nicole Yip, 2013 **The São Paulo Neo-Avant-Garde** Mari Rodríguez Binnie, 2024-09-17 Throughout the 1970s and into the 1980s in the wake of the installation of Brazil's military dictatorship, artists and art collectives in Brazil used their work to critique the government and its sanitized images of Brazil, its use of torture and its targeted persecutions. Mari Rodríguez Binnie's *The São Paulo Neo Avant Garde* studies this art and its engagement with politics and mainstream institutions and traditions. During this period São Paulo was home to a growing number of high rise office buildings and many of the artists studied here held day jobs that gave them after hours access to new technologies of mass production that became foundational to their work. As the author writes, By appropriating processes such as photocopy, offset lithography and thermal and heliographic printing, these artists simultaneously challenged the hidebound institutions of São Paulo's art world as well as the regime's own manipulation of mass media through censorship and propaganda. The artists did so through works that in their radical content and form hinged on establishing alternative networks of communication both at the local and international levels. The study moves forward chronologically and thematically with each chapter examining a particular set of works in their broader contexts.
