Charting Limitations on Trademark Rights Haochen Sun, Barton Beebe, 2023-04-15 Trademark scholarship has focused largely on the protection of trademark rights against consumer confusion and the dilution of trademarks. Studies of limitations on trademark rights meanwhile have remained relatively peripheral, especially in jurisdictions outside of the United States. However, this reality is incongruous with the importance of the limitations, such as descriptive and nominative uses, in promoting freedom of commerce, market competition, free speech, and cultural dynamics. Against this backdrop, *Charting Limitations on Trademark Rights* is the first comprehensive academic volume detailing limitations in trademark rights from both theoretical and comparative perspectives. The book presents new theoretical perspectives to justify trademark rights limitations, re-examines the nature of these limitations, delineates the scope of the limitations, and offers comparative studies of the limitations. With contributions from leading trademark scholars in the EU, US, and Asia, this is a must-read for scholars, students, practitioners, and policymakers with an interest in the theories, policies, and doctrines of trademark law.

Professional and Business Ethics Through Film Jadranka Skorin-Kapov, 2018-08-10 This book considers ethical issues arising in professional and business settings and the role of individuals making decisions and coping with moral dilemmas. Readers can benefit from engagement in filmic narratives as a simulated environment for developing a stance towards ethical challenges. The book starts by elaborating on critical thinking and on normative ethical theories, subsequently presenting the structure and cinematic elements of narrative film. These two avenues are tools for evaluating films and for discussions on various ethical problems in contemporary business, including the corporate and banking financial machinations, greed, fraud, social responsibility, workplace ethical challenges, harassment, violence, inequity, inequality, professional and business ethical challenges, corruption, whistleblowing, outsourcing, downsizing, competition, and innovation, environmental and social issues, international business, and human rights and personal responsibility and identity challenges due to career pressures, loss of privacy, and cyber harassment and job structure changes in light of changing technology.
