Data and Democracy at Work Brishen Rogers,2023-03-21 An exploration of how major companies have used advanced information technologies to limit worker power and how labor law reform could reverse that trend As our economy has shifted away from industrial production and service industries have become dominant many of the nation s largest employers are now in fields like retail food service logistics and hospitality These companies have turned to data driven surveillance technologies that operate over a vast distance enabling cheaper oversight of massive numbers of workers Data and Democracy at Work argues that companies often use new data driven technologies as a power resource or even a tool of class domination and that our labor laws allow them to do so Employers have established broad rights to use technology to gather data on workers and their performance to exclude others from accessing that data and to use that data to refine their managerial strategies Through these means companies have suppressed workers ability to organize and unionize thereby driving down wages and eroding working conditions Labor law today encourages employer dominance in many ways but labor law can also be reformed to become a tool for increased equity The COVID 19 pandemic and subsequent Great Resignation have indicated an increased political mobilization of the so called essential workers of the pandemic many of them service industry workers This book describes the necessary legal reforms to increase workers associational power and democratize workplace data establishing more balanced relationships between workers and employers and ensuring a brighter and more equitable future for us all

Handbook of Digital Innovation, Transformation, and Sustainable Development in a Post-Pandemic Era M. Affan Badar,Ruchika Gupta,Priyank Srivastava,Imran Ali,Elizabeth A. Cudney,2024-12-30 Businesses have faced a variety of difficulties as a result of the global pandemic and how they responded to this disruption has affected both their resilience and their ability to get through this crisis Digital technologies have played a crucial role in addressing these issues and fostering resilience It is therefore imperative to explore options for post pandemic business transformation and rethinking sustainable development Handbook of Digital Innovation Transformation and Sustainable Development in a Post Pandemic Era covers digital innovation and business transformation to build

resilience for sustainable development and growth and highlights the impact of supply chain disruptions and solutions to sustain. The handbook stands out for its inclusion of industry cases from various regions across the globe. By presenting the use of big data, blockchain technology and Industry 4.0, the handbook conveys how to work towards sustainable development and offers self-reliant and sustainable business models. Researchers and practitioners in industrial engineering, engineering management, business management, supply chain management and digital technologies along with businesses can apply the research and practices covered in the handbook. [Reengineering the Sharing Economy](#) Babak Heydari, Ozlem Ergun, Rashmi Dyal-Chand, Yakov Bart, 2023-04-06

The current sharing economy suffers from system wide deficiencies even as it produces distinctive benefits and advantages for some participants. The first generation of sharing markets has left us to question: Will there be any workers in the sharing economy? Can we know enough about these technologies to regulate them? Is there any way to avoid the monopolization of assets, information and wealth? Using convergent transdisciplinary perspectives, this volume examines the challenge of reengineering a sharing economy that is more equitable, democratic, sustainable and just. The volume enhances the reader's capacity for integrating applicable findings and theories in business law and social science into ethical engineering design and practice. At the same time, the book helps explain how technological innovations in the sharing economy create value for different stakeholders and how they impact society at large. [Reengineering the Sharing Economy](#) is also available as Open Access on Cambridge Core. [Communicate in a Crisis](#) Kate Hartley, 2019-08-03

[Communicate in a Crisis](#) is the definitive guide for any PR or marketing professional to recognize, plan and respond to a sudden wildfire of consumer-led reaction, manipulated outrage sparked from interaction on news feed algorithms fuelled by social media and the constant demand for an instantaneous response. This book turns the traditional crisis management approach on its head, starting by understanding changing consumer behaviours and the new threat for brands, then outlining practical steps to prepare, synchronize and execute a coordinated brand response across all channels under pressure. It reveals why we love to hate our favourite brands, how to recognize a day to day problem from a crisis and offers valuable advice such as using influencers and brand advocates to address social media trolls, rumours and the impact of fake news. With unique case studies, interviews and anecdotes from global leaders, [Communicate in a Crisis](#) will embed a bottom up culture of long term reputation management, always ready to face the unexpected.
