and practices from the literature on business manufacturing and commerce which inform principles for managing change in education are identified in this book The author shows how the complexity of change can be addressed effectively One principle of effective management of change is its potential to empower the individuals and organizations its power to create and operate win win situations That can only be done by addressing the human side of organizations The strength of the business literature is that far from advocating the austere over rationalized dehumanized and objective pursuit of profit at all costs it suggests that the effective management of change is an affirmation of the humanity of business      **Bibliography of**
