Paxton's Magazine of Botany Joseph Paxton, 2017-09-12 Excerpt from Paxton's Magazine of Botany And Register of Flowering Plants In the commencement of 1849 we entered on a wider field than we had previously occupied including in our work Notices and Cultivation of every thing connected with Gardening Although the plan did not admit of so many plates being given monthly yet perhaps an equal number of subjects have been figured with any former year and the amount of letter press has been much greater yet the alteration altogether has not been so satisfactory either to our subscribers or ourselves as could have been wished About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Paxton's Magazine of Botany, and Register of Flowering Plants, Vol. 2 (Classic Reprint) Joseph Paxton, 2017-10-17 Excerpt from Paxton's Magazine of Botany and Register of Flowering Plants Vol 2 The increasing interest exhibited during the past year in the introduction and culture of Flowering Plants may in a great measure account for the very extensive sale of the magazine OF botany which without doubt now

surpasses that of any other work of the kind in this country From this unexpected success the Author is led to hope that his endeavours however humble About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Paxton's Magazine of Botany, and Register of Flowering Plants, Vol. 1 (Classic Reprint) Joseph Paxton, 2016-08-16 Excerpt from Paxton's Magazine of Botany and Register of Flowering Plants Vol 1 From time immemorial Flowering Plants have been objects of especial care and delight but probably at no period was there a greater interest exhibited both as regards the introduction of new ones or the cultivation of those we already possess than at the present Botanical collections are to be found in almost every part of the globe from the torrid regions of India to the cold and icy poles In consequence of these exertions great numbers of new plants are annually introduced and in a few years should these additions continue our present extensive collections will appear comparatively scanty and meagre That these valuable introductions may be rendered of general utility several splendid botanical works containing coloured figures are published periodically and during the past year nearly two hundred new plants have been

figured in them some of which are exceedingly beautiful About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Paxton's Magazine of Botany and Register of Flowering Plants, Vol. 3 (Classic Reprint) Joseph Paxton, 2016-09-17 Excerpt from Paxton's Magazine of Botany and Register of Flowering Plants Vol 3 One circumstance in the culture ought to be noticed as adding much to the value of this charming plant If young seedling plants be carefully stopped while in sixty or forty eight size pots so as to prevent their twining and be thus made to form a branched or stocky growth they may be bedded out in parterre not earlier than the first week in June and will with care form one of the most beautiful objects that any mass of flowers is capable of presenting The rich verdure of the leaves which in favourable soil assumes somewhat of the figure of a broad arrow head contrasts With the innumerable pure buff coloured blooms that peep

from among them to which the open intensely purple tinted eye of the ower affords the finest relief imaginable There is nothing gorgeous in this display the whole is softly delicate and chaste we know of nothing that can compare with it Seed forms well on these external plants if the autumn be warm and sunny and every capsule as it acquires the pale brown tint of maturity either on the exposed plants or those under glass ought to be carefully preserved either to be sown or distributed among friends as we know that many persons lose all their stock in the winter and are thankful to be re supplied About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Botany, and Register of Flowering Plants, Vol. 7 (Classic Reprint) Joseph Paxton, 2018-03-23 Excerpt from Paxton's Magazine of Botany and Register of Flowering Plants Vol 7 One of the principal circumstances for which this plant will be prized is the opportunity it will afford for uniting the rich colours of the species which have their owers arranged in at heads with the lengthy spicate disposition of the blossoms by which it is peculiarly characterized This must be effected by cross impregna tion and is an object worthy of the culturist s assiduous attention Common propagation is performed in the usual manner by cuttings or layers The specific designation is that by which this plant is known in the Horti cultural Society s Garden and expresses its particularly interesting aspect About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Botany, and Register of Flowering Plants, 1843, Vol. 10 (Classic Reprint) Joseph Paxton, 2017-12-21 Excerpt from Paxton's Magazine of Botany and Register of Flowering Plants 1843 Vol 10 The character of the Embellishments of this work has at

length been brought almost as near to perfection as it is possible to attain It is indeed suggested by some of our friends that they are occasionally too beautiful and that the plants they represent are not ordinarily so handsome as they are here depicted Such a view however is a mistaken one it arises from a rule which we adopt in the choice of subjects for our drawings and which is to have them prepared whenever practicable About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Paxton's Magazine of Botany, and Register of Flowering Plants, 1848, Vol. 14 \(Classic Reprint\)](#) Joseph Paxton, 2017-10-22 Excerpt from Paxton's Magazine of Botany and Register of Flowering Plants 1848 Vol 14 In the present volume scientific subjects occupy a prominent position Amongst these may be mentioned articles on Temperature Meteorology Characteristics of the Seasons Winter Repose of Plants and Functions of Foliage The practical directions also are liberally interspersed especially relative to such plants as are considered difficult to cultivate indeed it has been our aim to blend Science and Art so intimately together that reasons for every direction will be apparent to all our readers And as it is our earnest wish to maintain inviolable that good feeling and mutual understanding which has for so many years been established we shall always feel the greatest pleasure in availing ourselves of every facility for rendering the Magazine of Botany still more extensively useful and thus relying upon a continuation of the kindness which has hitherto been so liberally bestowed we again commence our labours with renewed energy and delight About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc](#) William Jerdan, William Ring Workman, Frederick Arnold, John Morley, Charles Wycliffe Goodwin, 1884
