Abstract:

Richard Flanagan's novel, The Unknown Terrorist, does not only depict terrorism and violence but especially contemporary postmodern life in an Australian urban setting influenced by media, information technologies and consumerism. Drawing on Jean Baudrillard's theory of simulacra and simulation, this paper analyses Flanagan's depiction especially of the main character, the Doll, and the way she symbolically represents various aspects of the process of simulation as understood by Baudrillard. In this context, the Doll and other characters are understood as subjects both manipulating and manipulated by the simulated image of reality represented by media and technology, the image which replaces physical reality. The imagery of manipulation is understood as a metaphor implying a critique of hypocrisy and consumerism of the contemporary urban setting in the technologically advanced society represented by the Australian city of Sydney.

Richard Flanagan's novel *The Unknown Terrorist* paints a terrifying picture of a contemporary Australian society influenced by the media, consumerism, hypocrisy, racism and the misuse of power. In this novel, Australian society is depicted as one in which an individual's identity is constantly manipulated and destructed by the media and a bureaucratic system of power and control. Flanagan shows how freedom, mostly associated with money and the economically advanced international and multicultural city of Sydney, can become a nightmare and prison created by the very means that create this freedom – that is money and the media. Because of the broad masses' access to media, technology and consumerism, these phenomena

Targeting Terrorist Financing Arabinda Acharya,2009-09-11 This book examines the dynamics of terrorist financing including a discussion about the importance of money from both the terrorist and the counter terrorist perspective Targeting Terrorist Financing argues that it is not the institutions that have failed the war on terrorist financing rather it is the states that have failed the institutions The measures contemplated by the world community to interdict terrorists and their financial infrastructures are sufficient to debilitate the terrorists both militarily and financially However what has been increasingly lacking is political will among the states and this has overwhelmed the spirit of cooperation in this very critical front against terrorism This volume assesses the need for international cooperation and the role of institutions and regimes in targeting terrorist financing After the 9 11 attacks there was an expression of global willingness to target terrorism generally and terrorist financing in particular The institutional mechanisms that grew out of this are explored in detail here with a critical examination of the progress made by the international community The impact of these measures is considered with respect to changes in the nature of the terrorist threat money confiscated adoption of international conventions and global standards by states and levels of compliance among others This book will be of great interest to students of terrorism international organisations international security and IR in general Arabinda Acharya is Research Fellow Manager of Strategic Projects and Head of the Terrorist Financing Response Project at the International Centre for Political Violence and Terrorism Research in the S Rajaratnam School of International Studies Nanyang Technological University Singapore

Thinking Like a Terrorist Mike German,2007 As the fifth full year of America s global war on terrorism continues statistics concerning terrorist attacks show a disturbing trend from a twenty one year high in 2003 attacks tripled in 2004 and then doubled in 2005 And as the incidence of terrorist attacks increased so has the number of terrorists While the primary leaders of the Taliban al Qaeda and al Qaeda in Iraq remain at large a 2006 Department of Defense study reportedly identified thirty new al Qaeda affiliated terrorist groups that have been created since September 11 2001 We may not have metrics that measure our success in the war on terrorism but these realities certainly illuminate our failures In *Thinking Like a Terrorist* former FBI counterterrorism agent Mike German contends that the overarching problem is a fundamental failure to understand the terrorists namely what they want and how they intend to get it When our counterterrorism policies are driven by misunderstanding and misperception we shouldn t be surprised at the results Today s terrorists have a real plan a blueprint that has brought them victory in the past that they are

executing to perfection moreover their plan is published and available to anyone who bothers to read it Once the terrorists plan is understood we can develop and implement more effective counterterrorism strategies A former undercover agent who infiltrated neo Nazi terrorist groups in the United States German explains the terrorist s point of view and discusses ways to counter the terrorism threat Based on his unusual experience in the field Thinking Like a Terrorist provides unique insights into why terrorism is such a persistent and difficult problem and why the U S approach to counterterrorism isn t working
