Pdf Online Contesting Antiquity Egypt Archaeologies Identities:

Migration and Migrant Identities in the Near East from Antiquity to the Middle Ages Justin Yoo,Andrea Zerbini,Caroline Barron,2018-10-29 This book brings together recent developments in modern migration theory a wide range of sources new and old tools revisited from GIS to epigraphic studies from stable isotope analysis to the study of literary sources and case studies from the ancient eastern Mediterranean that illustrate how new theories and techniques are helping to give a better understanding of migratory flows and diaspora communities in the ancient Near East A geographical gap has emerged in studies of historical migration as recent works have focused on migration and mobility in the western part of the Roman Empire and thus fail to bring a significant contribution to the study of diaspora communities in the eastern Mediterranean Bridging this gap represents a major scholarly desideratum and by drawing upon the experiences of previously neglected migrant and diaspora communities in the eastern Mediterranean from the Hellenistic period to the early mediaeval world this collection of essays approaches migration studies with new perspectives and methodologies shedding light not only on the study of migrants in the ancient world but also on broader issues concerning the rationale for mobility and the creation and features of diaspora identities

Ancient Egyptian Society Danielle Candelora,Nadia

Ben-Marzouk,Kathlyn M. Cooney,2022-08-31 This volume challenges assumptions about and highlights new approaches to the study of ancient Egyptian society by tackling various thematic social issues through structured individual case studies The reader will be presented with questions about the relevance of the past in the present The chapters encourage an understanding of Egypt in its own terms through the lens of power people and place offering a more nuanced understanding of the way Egyptian society was organized and illustrating the benefits of new approaches to topics in need of a critical re examination By re evaluating traditional long held beliefs about a monolithic unchanging ancient Egyptian society this volume writes a new narrative one unchecked assumption at a time Ancient Egyptian Society Challenging Assumptions Exploring Approaches is intended for anyone studying ancient Egypt or ancient societies more broadly including undergraduate and graduate students Egyptologists and scholars in adjacent fields

Empire, Celebrity and Excess

Martin Francis,2022-10-20 While now long forgotten King Farouk of Egypt loomed large in British culture in the 1940s and 1950s Farouk was of interest and importance not just to British imperial policy makers but to a wider public that was exposed to his extravagant lifestyle and colourful private life through gossip columns comedy sketches cartoons song lyrics and novels This book explores how the narratives and representations of King Farouk found in British official and popular culture dramatized the retreat from empire the rise of celebrity journalism changing conceptions of masculinity and sexuality ambivalent attitudes towards monarchy postcolonial exile the growth of mass tourism and the post war transition from austerity to abundance By considering diplomatic history in tandem with histories of popular culture and celebrity Francis presents a more holistic understanding of British culture during the era of decolonization The varied cultural and social

features of post war Britain and the reconstitution of British identity in the aftermath of empire sexual liberalization Americanization consumer affluence increased interaction with Europe new forms of mass leisure and the emergence of celebrity culture did not take place independently of the dismantling of imperial rule Studying Farouk therefore sheds new light on the multiple and complex ways in which Britain emerged as a postcolonial nation

Communicating the Past in the

Digital Age Sebastian Hageneuer ,2020-02-06 Recent developments in the field of archaeology are not only progressing archaeological fieldwork but also changing the way we practise and present archaeology today As these digital technologies are being used more and more every day on excavations or in museums this also means that we must change the way we approach teaching and communicating archaeology as a discipline The communication of archaeology is an often neglected but ever more important part of the profession Instead of traditional lectures and museum displays we can interact with the past in various ways Students of archaeology today need to learn and understand these technologies but can on the other hand also profit from them in creative ways of teaching and learning The same holds true for visitors to a museum This volume presents the outcome of a two day international symposium on digital methods in teaching and learning in archaeology held at the University of Cologne in October 2018 addressing exactly this topic Specialists from around the world share their views on the newest developments in the field of archaeology and the way we teach these with the help of archaeogaming augmented and virtual reality 3D reconstruction and many more Thirteen chapters cover different approaches to teaching and learning archaeology in universities and museums and offer insights into modern day ways to communicate the past in a digital age

Displaced Things in

Museums and Beyond Sandra H. Dudley,2020-11-29 Displaced Things in Museums and Beyond looks anew at the lives effects and possibilities of things Starting from the perspectives of things themselves it outlines a particular displacement approach to the museum anthropology and material culture The book explores the ways in which the objects are experienced in their present displaced settings and the implications and potentialities they carry It offers insights into matters of difference and the hope that may be offered by transformative encounters between persons and things Drawing on anthropological studies of ritual to conceptualise and examine displacement and its implications and possibilities Dudley develops her arguments through exploration of displaced objects now in museums and dislocated or exiled from their prior geographical historical cultural intellectual and personal contexts The book s approach and conclusions are relevant far beyond the museum showing that even in the most difficult of circumstances there is agency distinction and dignity in the

choices and impacts that are made and that things and places as well as people have efficacy and potency in those choices In Displaced Things displacement emerges as fundamental to understanding the lives of things and their relationships with human beings and the places however defined that they make and pass within The book will be essential reading for academics and students engaged in the study of museums heritage anthropology culture and history [Freemasonry in the Ottoman Empire](#) Dorothe Sommer,2015-01-30 The network of freemasons and Masonic lodges in the Middle East is an opaque and mysterious one and is all too often seen within the area as a vanguard for Western purposes of regional domination But here Dorothe Sommer explains how freemasonry in Greater Syria at the end of the nineteenth and beginning of the twentieth century actually developed a life of its own promoting local and regional identities She stresses that during the rule of the Ottoman Empire freemasonry was actually one of the first institutions in what is now Syria and Lebanon which overcame religious and sectarian divisions Indeed the lodges attracted more participants such as the members of the Trad and Yaziji Family Khaleddeen Abdulwahab Hassan Bayhum Alexander Barroudi and Jurji Yanni than any other society or fraternity Freemasonry in the Ottoman Empire analyses the social and cultural structures of the Masonic network of lodges and their interconnections at a pivotal juncture in the history of the Ottoman Empire making it invaluable for researchers of the history of the Middle East
