Reading Media: How to do Textual Analysis reinvigorates one of media and cultural studies' most foundational methods at a moment when it is most needed, showing its continuing vitality by adapting it to new media environments, cultural objects and scholarly questions. The volume insists that the close study of meaning, form and representation remains central to understanding media's power. With contributions from leading and emerging scholars, the book offers a diverse toolkit from narratological and semiotic analysis of film and TV to historical poetic accounts of TikTok, multimodal analysis of Afrobeats music videos and postcolonial criticism of games. Essays extend the scope of textual analysis to unexpected objects such as plastic waste, memes and refugee-authored media, while others demonstrate how texts operate across platforms, genres and transmedia franchises. Beyond offering new and improved approaches to textual analysis, each chapter illustrates its approach using a specific case study, functioning both as a step-by-step guide and as an example of textual analysis in action. Reading Media advances a vision of textual analysis that is rigorous yet flexible, attuned to both aesthetics and politics, and responsive to today's media environment. Essential for students and scholars in media communication and cultural studies, Reading Media both reaffirms and renews textual analysis as an indispensable way of engaging with the mediated worlds that shape contemporary life. **The Geopolitics and Geoeconomics of Technology** J.
