Perspectives on Stress and Stress-related Topics Fernando Lolas,Horst Mayer,1987 Why a new book on stress when so many are already available There is widespread awareness of the impact of scientific research in this field both theoretical and practical Scores of articles and books have been published What is especially exciting about the range of theories and ideas presented in this book is that they derive from a variety of different intellectual traditions and scientific disciplines The book is not an attempt to replace more extensive or basic treatments of this subject Rather it seeks to present the authors viewpoints together with data and methodological applications based on their personal experience in a straightforward manner A number of the articles were commissioned some time ago when Horst Mayer decided to publish the papers presented at a symposium which he organized in Heidelberg under the auspices of the German College of Psychosomatic

Medicine Others emerged from later contacts with authors in different parts of the world The result is a rather heterogeneous collection of perspectives on stress which it is hoped will stimulate readers to arrive at their own conclusions through its very diversity When it was decided that Fernando Lolas would join this endeavor at the end of 1984 it became clear that the material had lost none of its appeal Challenges to the Enlightenment Academy of Humanism,1994-02 Modern western society with its democratic institutions and its reliance on science as the basis of technology and industry is largely an outgrowth of Enlightenment ideals Yet today the entire Enlightenment agenda is being challenged not only by members of the religious orthodoxy but also by a group of academics loosely described under the label of postmodernism Whereas the Enlightenment project has always been at odds with religious orthodoxy which has traditionally been suspicious of efforts to achieve human progress without supernatural support today it must deal with a very different type of attack from postmodernist intellectuals **The Boston Medical and Surgical Journal** ,1898 *California Business* ,1988
