Health Promotion Nova Corcoran, 2023-12-21 Health Promotion The Basics introduces not only the fundamental theories and key concepts within this important area of health and social care but translates these into practice for anyone working in the field The chapters are structured around the WHO's Ottawa Charter 1986 which underpins the discipline and cover a comprehensive range of topics From developing personal skills to understanding government policy the book looks at health promotion on both an individual and a societal level It spotlights key topic areas from behaviour change to climate change as well as exploring how where we live impacts our health and features practical examples for integrating health promotion into existing service provision and through community action Including case studies throughout and further reading for those wishing to explore specific topics this is the perfect introduction to what health promotion means and how it can improve everyday lives *Promotion of business transfers in the Baltic Sea Region* Max Hogeforster, Christian

Wildt, 2021-09-21 The ageing of society does not stop at company owners More and more companies have to be handed over to the new generation This process is a challenge for all parties involved The support of business transfer assistance is just as essential for the European economy as the promotion of start ups because both are critical to the development of the European economy Over 450 000 firms with over two million jobs are transferred to a new owner in the EU 28 each year Around one third of these transfers fail and the companies are closed The future growth and sustainability of innovative companies in the Baltic Sea Region are severely limited by failed business transfers Furthermore due to a lack of available and appropriate successors many firms are liquidated rather than transferred This publication is part of the project INBETS www.inbets.eu highlights the background to the current situation of business transfers in the Baltic Sea Region and proposes a policy program to promote business successions and open up new target groups of potential successors Part financed by the European Union European Development Fund and European Neighbourhood and Partnership Instrument within the INBETS project This publication does not necessarily reflect the opinion of the European Commission Unsolved
