**Racetrack Betting** Peter Asch, Richard E. Quandt, 1986 A day at the races with its colorful variety and fast paced action appeals to people from all walks of life. Not surprisingly the idea of going home with a few more dollars than when one arrived is part of horseracing's charm. In this entertaining but substantive volume two distinguished economists who happen to be horseracing buffs outline a tested strategy for placing bets that will increase the reader's chances of a happy outcome at the track. The authors are the first to point out that getting rich at the racetrack is unlikely. They do maintain however that with attention to their systematic approach the racing fan can achieve the best possible chance at winning. In the process the reader learns some of the most important measurement techniques in the social sciences as well as the basic methods of market analysis.

*Better Betting with a Decent Feller* Carl Chinn, 2004 Today branches of chains such as William Hill and Ladbrokes are familiar sights in high streets across Britain and betting takes place on all sorts of events from horse racing to general elections from football matches to the likelihood of snow falling on Christmas Day. Yet until 1961 street bookmakers were illegal and old prejudices are slow to fade away. Atigma is still attached to bookmaking and for many people bookmakers remain disreputable and shady lot. This book sets out to examine why this is the case. Social historian Carl Chinn was himself a bookmaker like his father and grandfather before him and therefore brings his own unique perspective. This lively and highly readable account of the profession's history from its origins among the sharpsters who hoodwinked punters at racecourses to the illegal street bookies who offered the working class a tantalising escape from poverty to the growth of leisure empires such as Coral and William Hill.
