**Index**, 1996    **The Black Box of Governance** Sandra Guerra, 2021-09-08 In the world of corporate governance, the board of directors is often viewed as the black box of companies: only the board members who are seated at the meeting table understand how this decision-making machine works. In this book, a board member with over 25 years' experience pulls off the lid and shows both how boards have worked and how they could work. This book is grounded in extensive research in three different surveys: one with more than 100 Brazilian directors, another with 340 board members from 40 countries, and a final one with 103 Brazilian directors serving on 238 boards. It also includes interviews with Ira Millstein, Sir Adrian Cadbury, Robert Monks, and Mervyn King. The inner workings of the board of directors are revealed: What keeps directors awake at night? Obstacles to efficient decision making, Behavioral dynamics both within the board and in relation to the management. Pitfalls that arise from individual and group biases. Based on these insights and the author's own consulting and board experience, the book presents a guide to behavioral tools enabling directors and executives to confidently navigate the boardroom, improving interactivity and the efficiency of the decision-making process. Intended for directors and executives who are directly involved in the board's activities, as well as for leaders responsible for strategy implementation, this book provides a behavioral compass for all those interacting with the black box. *National Union Catalog*, 1972 Includes entries for maps and atlases. *The American Monthly Review of Reviews* Albert Shaw, 1897    **The Annual Cyclopedia of Insurance in the United States**, 1891
