The Payment Card Industry (PCI) Security Standards Council (SSC) is an open global forum founded by a consortium of the major card brands. The PCI SSC created and maintains the PCI Data Security Standard (DSS) which encourages and enhances cardholder data security and facilitates the broad adoption of consistent data security measures globally. The PCI DSS Requirements and Security Assessment Procedures set forth 12 PCI DSS requirements, and defines compliance testing procedures, to form a common security assessment tool. The current version of the PCI DSS can be found at [www.pcisecuritystandards.org](http://www.pcisecuritystandards.org).

This document confirms that BrightLine CPAs and Associates, Inc., a certified Qualified Security Assessor (QSA) Company, utilized these procedures to conduct an onsite assessment for this Service Provider and validated its compliance with the applicable sections of the PCI DSS version 2.0.
