Theology from Listening: Finding the Core of Liberal Quaker Theological Thought Rhiannon Grant, 2020-04-28 In Theology from Listening Finding the Core of Liberal Quaker Theological Thought Rhiannon Grant explores the changes and continuities in liberal Quaker theology over the twentieth and early twenty first centuries in multiple English speaking Quaker communities around the world The work involves a close analysis of material produced by Quaker meetings through formal corporate methods of material produced by individuals and small groups within Quaker communities and of writing by individuals and small groups working primarily within academic or ecumenical theological settings It concludes that although liberal Quaker theology is diverse and flexible it also possesses a core coherence and can meaningfully be discussed as a single tradition At the centre of liberal Quaker theology is the belief that direct unmediated contact with the Divine is possible and results in useful guidance *Quaker Quicks - Hearing the Light* Rhiannon Grant, 2021-09-24 Quaker Quicks Hearing the Light begins with the foundations of Quaker theology which is based in the Quaker method of unprogrammed silent worship This act of gathering as a community to wait and listen to God is at the heart of Quakerism and essential to understanding Quaker theology which is embedded in the practice as well as explained by it Rhiannon Grant shows how Central Quaker theological claims such as that everyone has that of God within them that God offers support and guidance to all who choose to listen and that Quakers as a community are led by God to treat everyone equally resist war and live simply can be understood through a consideration of this distinctive worship practice Rhiannon Grant also explores what it means to say that this form of theology is liberal although many Quakers are politically liberal they have also been called conservative radicals Kenneth Boulding and the liberalism involved is not mainly political but an attitude towards diversity of thought opinion and especially religious belief While united by the practice of unprogrammed worship Quakers have no written creed and no specific beliefs are required of members Instead there is a prevailing attitude of continued searching an acceptance that new evidence may appear and a willingness to learn from others including members of other faith communities At a time of great religious and political division this radical approach to faith and learning that Grant sheds light upon has never been more prescient **Amity** J.
