*We, the Data* Wendy H. Wong, 2023-10-10 A rallying call for extending human rights beyond our physical selves and why we need to reboot rights in our data intensive world Winner of the 2024 Balsillie Prize for Public Policy Shortlisted 2024 Lionel Gelber Prize Our data intensive world is here to stay but does that come at the cost of our humanity in terms of autonomy community dignity and equality In *We the Data* Wendy H Wong argues that we cannot allow that to happen Exploring the pervasiveness of data collection and tracking Wong reminds us that we are all stakeholders in this digital world who are currently being left out of the most pressing conversations around technology ethics and policy This book clarifies the nature of datafication and calls for an extension of human rights to recognize how data complicate what it means to safeguard and encourage human potential As we go about our lives we are co creating data through what we do We must embrace that these data are a part of who we are Wong explains even as current policies do not yet reflect the extent to which human experiences have changed This means we are more than mere subjects or sources of data by products that can be harvested and used by technology companies and governments By exploring data rights facial recognition technology our posthumous rights and our need for a right to data literacy Wong has crafted a compelling case for engaging as stakeholders to hold data collectors accountable Just as the Universal Declaration of Human Rights laid the global groundwork for human rights *We the Data* gives us a foundation upon which we claim human rights in the age of data **Charity U.S.A.** Carl Bakal, 1979 Includes information on American Cancer Society American Diabetes Association American Foundation for the Blind American Heart Association American Lung Association American National Red Cross Arthritis Foundation beggars and panhandlers black charities blindness Boys Clubs of America Boys Town Camp Fire Girls cancer Christianity and charity Cystic Fibrosis Foundation diabetes Disabled American Veterans evaluating a charity fund raising techniques Girl Scouts government support guide dogs history of philanthropy Jaycees Jewish giving kidney disease lung diseases mental illness mental retardation minority related charities misuse of funds motivations for giving Muscular Dystrophy Association National Easter Seal Society National Foundation March of Dimes National Multiple Sclerosis Society Planned Parenthood Federation poverty and the poor Protestant giving Roman Catholic giving scouting tuberculosis United Cerebral Palsy Association United Jewish Appeal UJA United Way volunteer workers Volunteers of American etc The U.S.A. Sinn, Andreas Heusler, 2022-02-21 German Jews and Migration to the United States 1933 1945 is a collection of first person accounts many previously unpublished that document the flight and exile of German Jews from Nazi Germany to the USA The authors of the letters and memoirs included in this collection share two important characteristics They all had close ties to Munich the Bavarian capital and they all emigrated to the USA though sometimes via detours and or after stays of varying lengths in other places of refuge Selected to represent a wide range of

exile experiences these testimonies are carefully edited extensively annotated and accompanied by biographical introductions to make them accessible to readers especially those who are new to the subject These autobiographical sources reveal the often traumatic experiences and consequences of forced migration displacement resettlement and new beginnings In addition this book demonstrates that migration is not only a process by which groups and individuals relocate from one place to another but also a dynamic of transmigration affected by migrant networks and the complex relationships between national policies and the agency of migrants **USA Today** ,1995 **Washington, USA** Faith Baldwin,1943 The home security company "Ring". Entry in the market of western Europe Eric Carstensen,2022-02-09 Seminar paper from the year 2020 in the subject Business economics Offline Marketing and Online Marketing grade 3 AFUM Akademie f r Unternehmensmanagement GmbH language English abstract This coursework will take a closer look at the company Ring Ring was founded in 2012 by Jamie Siminoff The company manufactures security technology and continues to expand more and more worldwide The prices of the products are low and it is suitable for every household In order to compete even more in the global market this paper will show in which countries the company will be distributed next The focus is on the western European market where four countries are selected in which Ring is expanding its market First the company Ring is described in more detail including which products are sold how much the company is worth and whether it has already helped against burglaries The next step is to look at which countries in Western Europe should start selling security products taking into account the crime rate and the rate of burglaries and thefts After that potential companies are considered who can sell Ring s security products in order to make the highest possible profit and enter the market on a large scale For this purpose the largest possible companies and supermarkets are looked at so that as many customers as possible can buy the products Finally a short conclusion will be given on how Ring can proceed to enter the four countries as quickly and precisely as possible in order to spread more and more in Western Europe **Technocreep and the Politics of Things Not Seen** Neda Atanasoski,Nassim Parvin,2025-04-11 New and emerging technologies especially ones that infiltrate intimate spaces relations homes and bodies are often referred to as creepy in media and political discourses In Technocreep and the Politics of Things Not Seen Neda Atanasoski and Nassim Parvin introduce a feminist theory of creep that they substantiate through critical engagement with smart homes smart dust smart desires and smart forests toward dreams of feminist futures Contributing authors further illuminate what is otherwise obscured assumed or dismissed in characterizations of technology as creepy or creeping Considering diverse technologies such as border surveillance and China s credit system to sexcams and home assistants the volume s essays and artworks demonstrate that the potentials and pitfalls of artificial intelligence and digital and robotic technologies cannot be assessed through binaries of seeing being seen privacy surveillance or harmful useful Together their multifaceted and multimodal approach transcends such binaries accounting for technological relations that exceed sight to include touch presence trust and diverse modes of collectivity As such this volume develops creep as a

feminist analytic and creative mode on par with technology's complex entanglement with intimate local and global politics
