Cancer is a bitch of a disease Every single person who s experienced being diagnosed and treated is a hero There are a lot of cancer books out there What s different about this one Maybe nothing Maybe a lot I m a psychologist by trade About fifteen years back I started writing novels Unfortunately there s not a scrap of fiction in Alive There are also no dragons unicorns or magical worlds This book was tough to write In places it will be equally tough to read In addition to my personal saga it includes stories from other brave souls who volunteered to be part of this project There are also chapters about the etiology of cancer cancer as big business in America and elsewhere avoiding scams and integrative oncology Like most I started my cancer journey believing the MDs had my best interests at heart A few did but to so many others I was nothing but a number a statistic many steps removed from a human being My hope for Alive is it will empower others to stand up for themselves to ask questions to do their own research Ultimately everyone s life is precious and worth the effort of self advocacy
