Exploring Intelligent Decision Support Systems Rafael Valencia-García, Mario Andrés Paredes-Valverde, María del Pilar Salas-Zárate, Giner Alor-Hernández, 2018-02-07 This book presents innovative and high quality research regarding advanced decision support systems DSSs. It describes the foundations, methods, methodologies, models, tools, and techniques for designing, developing, implementing, and evaluating advanced DSSs in different fields including finance, health, emergency management, industry, and pollution control. Decision support systems employ artificial intelligence methods to heuristically address problems that are cannot be solved using formal techniques. In this context, technologies such as the Semantic Web, linked data, big data, and machine learning are being applied to provide integrated support for individuals and organizations to make more rational decisions. The book is organized into two parts. The first part covers decision support systems for industry while the second part presents case studies related to clinical, emergency management, and pollution control.

Tcherneva, 2020-06-05 One of the most enduring ideas in economics is that unemployment is both unavoidable and necessary for the smooth functioning of the economy. This assumption has provided cover for the devastating social and economic costs of job insecurity. It is also false. In this book, leading expert Pavlina R. Tcherneva challenges us to imagine a world where the phantom of unemployment is banished and anyone who seeks decent living wage work can find it guaranteed. This is the aim of the Job Guarantee proposal to provide a voluntary employment opportunity in public service to anyone who needs it. Tcherneva enumerates the many advantages of the Job Guarantee over the status quo and proposes a blueprint for its implementation within the wider context of the need for a Green New Deal. This compact primer is the ultimate guide to the benefits of one of the most transformative public policies being discussed today. It is essential reading for all citizens and activists who are passionate about social justice and building a fairer economy. **India Today International**, 2008 *Understanding Electronic Contracting* Raymond T.
