1 The collection of essays aims not only to fill a largely neglected area in studies of new film history but also to bring a fresh perspective by challenging the standard approaches to archives The discussion of film archives in the book ranges from conventional topics like the collection preservation and sharing of films to new questions such as copyright issues artistic practices and lost and imagined films

2 The book introduces a multi disciplinary perspective that challenges one sided approaches to film archives By bringing together film scholars filmmakers and archivists it is a collaborative effort to seek out new frontiers and build effective dialogue about archival practices

3 Lastly the book s uniqueness lies in its divergence from previous studies in adopting a non Eurocentric approach The experiences and practices of non Western scholars in film archives are a major focus of various chapters
