## Merchant Navy Question Paper 2014:

**Royal Yachts Under Sail** Brian Lavery, 2022-11-30 From the time of the Restoration of Charles II when he returned to England from Breda and was presented with the yacht Mary by the burgomaster of Amsterdam Royal yachts began to be defined as such in England and built with that special purpose in mind. They were built luxuriously and used for royal visits to the fleet for diplomacy and for racing and cruising for pleasure. Charles II took more of an interest in the sea than any other English monarch. He built a fleet of royal yachts, fine examples of ship design and decorative art, and he can be said to have been the father of yachting and of royal yachts. His successors were less keen on the sea but traveled to Europe on missions of peace and war and royal yachts took part in regime change several times. In 1689 Queen Mary was bought over to join her husband William of Orange and complete the Glorious Revolution. In 1714 George I arrived from Hanover to establish a new dynasty. And in 1814 in a reverse process King Louis XVIII was taken back to France to restore the monarchy after the defeat of Napoleon. This important new book is the first to describe the building and decoration of the yachts in such detail using many newly discovered sources and it is the first to describe their uses and exploits often taking their royal passengers into controversy or danger. Besides the yachts themselves it reveals much about the character of the kings, queens and princes involved, the impetuousness of the future William IV for example or his brother George IV's surprising love of sailing. It describes the design, accommodation and sailing of the yachts as well as their captains and crews. Sailing yachts came to an end when Queen Victoria discovered that steam power was more efficient as well as more comfortable but they revived in the form of her son Edward's cutter Britannia and the Duke of Edinburgh's Bloodhound and Coweslip. Their legacy can be seen in the widespread sport of yachting today and in the lavish superyachts of billionaires. This beautifully illustrated book full of anecdote and containing detailed descriptions of dozens of royal yachts will fascinate naval historians, ship modelers and indeed anyone who sets foot aboard the deck of a modern yacht.

[Seaforth World Naval Review 2020](#) Conrad Waters, 2019-10-30 This anthology features in-depth assessments of naval innovations and developments around the world by leading experts in the field. The Seaforth World Naval Review 2020 provides an authoritative summary of cutting edge naval developments across the globe. Regional surveys of fleet evolution and procurement by editor Conrad Waters are supplemented by in-depth articles from a range of experts focusing on significant new warships, technological advances and specific navies. This volume features coverage of the US Navy's Virginia class submarines, the Royal Navy's Tide class tankers and the Indian P28 Komodo class corvettes. Recent developments in submarine technology are analyzed by Norman Friedman while David Hobbs' usual review of naval aviation focusses on the F35 Lightning II. In-depth fleet reviews look at Finland and Germany and analyze how they are responding to the increased Russian threat. Now firmly established as providing the only annual naval overview of its type, The Seaforth World Naval Review is essential reading for anyone interested in contemporary maritime affairs.
