The book critically discusses plurilingual pedagogical approaches that draw on learners' linguistic and cultural repertoires to encourage and support the dynamic use of languages in curricular innovation. It is a fundamental resource for language teachers, curriculum designers and educational researchers interested in understanding current thinking on the relevance and benefit of a plurilingual paradigm shift for language education in today's societies. More specifically, this book examines the development of plurilingualism and the potential of real life oriented teaching and learning. Explores the concept of plurilingual and pluricultural competence. Focuses on collaboration and reflection from a humanistic tradition. Explores educational technology and explains the limitations and challenges of adopting ready made tools. Introduces practical examples of action oriented tasks and scenarios and illustrates the online tool LITE in terms of its current functionalities and design. Describes the implementation challenges and opportunities of plurilingual action oriented tasks and discusses the results of implementation. Finally, the book examines future pedagogical innovation and research directions in order to help readers reflect on the implications of

achieving sustainable change in language education.
