analyses but still are too rich in their potential to contribute to knowledge to ignore All three prongs are represented in this edited volume which draws on the best of the new research and thinking showcased at the Annual Conference of the International Media Management Academic Association held during October 24 25 2014 in Pamplona Spain The book's 10 chapters are organized into three main sections that move respectively from a high level focus on core principals and fundamental challenges to effective management to more narrowly focused research but with generalizable findings on solutions to concrete and specific problems faced by media firms trying to improve their results from the services and products they offer to case studies of market level change in three very different political and economic environments The remainder of this brief introduction was written as a guide to the research and findings presented in these sections
