

Mapping Lab: Oceania and Antarctica

MAKING A MENTAL MAP

1. Look at the outline map of Oceania and Antarctica on the next page. Then draw and label these features where you think they are located:
 - Australia and New Zealand
 - Antarctica
 - the equator
 - the oceans
 - the areas that you think have the greatest population
 - the areas that you think have the least population
2. Revise this mental map at the end of the Mapping Lab. Follow these steps to analyze your mental map:
 - Use one color to highlight or circle at least three details that were correct or fairly accurate.
 - Use another to highlight or circle at least three details that were inaccurate. Correct those items.
 - Use a third to add at least three new items.
 - At least one item should represent information about physical geography, and at least one should represent information about human geography.

Answers may vary.
