Oceans An Activity Guide For Ages 6-9:

Oceans Nancy Fusco Castaldo, 2002 Even kids that live far from water can have fun with this activity guide as they explore ocean habitats. Carve a polar bear from soap, play echo games and learn about aquariums. Full color illustrations.

Insectigations Cindy Blobaum, 2005-11-01 From butterflies and beetles to crickets and katydids, these experiments, art projects and games will bring out the entomologist in every kid. Activities include collecting and sketching insects, making a terrarium for observation, raising mealworms using math to measure bug strength, gardening to attract butterflies and other insects, and making an insect amplifier. A unique insect board game helps kids learn fascinating bug facts while they play. Sidebars offer a look into the world of professional entomology as well as gross facts about insects that will provide great playground trivia including the USDA's guidelines for allowable insect parts per cup of food. Kids will learn that science is not just something to read about but something they can observe and study in the world around them.

Rainforests Nancy F. Castaldo, 2003-06-01 North America boasts a surprising number of rainforests including El Yunque National Forest in Puerto Rico, Olympic National Forest in Washington State, Chugach and Tongass National Forests in Alaska and the forests in Hawaii which are home to an enormous variety of plants and animals. Rainforests An Activity Guide takes kids through the common layers of the rainforest from the forest floor to above the enclosed canopy. Their journey continues through the different types of rainforests as they are introduced to plants, animals and people around the world including those from the temperate rainforests of North America to the tropical rainforests of Southeast Asia, Africa and South America. Rainforest inspired activities include making a West African yam festival gourd rattle, building a model of an Alaskan totem pole and creating a Japanese Wayang kult or shadow puppet. Kids are encouraged to make a difference and become active supporters of the rainforests no matter where they live.

Deserts Nancy F. Castaldo, 2004-04-01 This activity guide introduces children to the wild and often misunderstood environment of the desert and the people and cultures that thrive in and around them. Information is included on all types of deserts: hot and dry, coastal, semiarid and polar. Kids learn what defines a desert and the creative ways plants and animals have adapted to survive in harsh desert environments. Also discussed are urban sprawl and its effects on desert habitats and how children can help protect this delicate environment by conserving energy and reducing consumption of petroleum based products. Engaging activities include drawing a petroglyph, making a coral snake bracelet, frying prickly pears, conducting a gerbil study and making sand art.
