Meaning in Context Jonathan J. Webster, 2008-04-21 *Meaning in Context* collects some of the biggest names in systemic functional linguistics in one volume and shows how this theory can be applied to language studies intelligently in order to arrive at a better understanding of how meaning is constructed in language. This forward thinking volume will be of interest to researchers in applied linguistics and systemic functional linguistics.

Theorizing and Applying Systemic Functional Linguistics Bo Wang, Yuanyi Ma, 2023-12-29 This collection reflects on developments in the field of Systemic Functional Linguistics (SFL) as embodied in the work of Christian M. I. M. Matthiessen, highlighting his diverse contributions to the field from theoretical and applied perspectives. The book surveys Matthiessen's academic career and illustrates the myriad ways in which his work has reverberated through to current innovations in SFL research. The book also exhibits his theoretical contributions to major linguistic topics and his influence on the development of SFL. Written by some of the world's foremost scholars in the field, chapters cover such topics as theories of SFL and its applications in different domains as well as the developmental trajectories of SFL in major geographic areas. Addressing the key issues in SFL through the lens of Matthiessen's career, this book is an accessible resource for students and scholars in systemic functional linguistics as well as those interested in the systemic functional approach in related areas within linguistics.

Halliday in the 21st Century M.A.K. Halliday, 2013-12-05 This is the eleventh volume in Professor M. A. K. Halliday's *Collected Works*. First published as a 10 volume set from 2002 to 2007, they have shown the sizeable and growing international interest across a number of disciplines in the systemic functional linguistics framework. Halliday's powerful theoretical approach to the study of language has contributed significantly not only to advances in our knowledge of how language works but also how linguistic insights may be practically applied across a wide spectrum of social concerns.

Proceedings of the VIIth GSCP International Conference. Speech and Corpora Massimo Pettorino, Heliana Mello, Tommaso Raso, 2012 The 7th International Conference of the Gruppo di Studi sulla Comunicazione Parlata dedicated to the memory of Claire Blanche Benveniste chose as its main theme *Speech and Corpora*. The wide international origin of the 235 authors from 21 countries and 95 institutions led to papers on many different languages. The 89 papers of this volume reflect the themes of the conference: spoken corpora, compilation and annotation with the technological connected fields, the relation between prosody and pragmatics, speech pathologies and different papers on phonetics, speech and linguistic analysis, pragmatics and sociolinguistics. Many papers are also dedicated to speech and second language studies. The online publication with FUP allows direct access to sound and video linked to papers when downloaded.
