Middlemarch: A Study of Provincial Life George Eliot, 2016-08-31 Who that cares much to know the history of man and how the mysterious mixture behaves under the varying experiments of Time has not dwelt at least briefly on the life of Saint Theresa has not smiled with some gentleness at the thought of the little girl walking forth one morning hand in hand with her still smaller brother to go and seek martyrdom in the country of the Moors Out they toddled from rugged Avila wide eyed and helpless looking as two fawns but with human hearts already beating to a national idea until domestic reality met them in the shape of uncles and turned them back from their great resolve That child pilgrimage was a fit beginning Theresa's passionate ideal nature demanded an epic life what were many volumed romances of chivalry and the social conquests of a brilliant girl to her Her flame quickly burned up that light fuel and fed from within soared after some illimitable satisfaction some object which would never justify weariness which would reconcile self despair with the rapturous consciousness of life beyond self She found her epos in the reform of a religious order That Spanish woman who lived three hundred years ago was certainly not the last of her kind Many Theresas have been born who found for themselves no epic life wherein there was a constant unfolding of far resonant action perhaps only a life of mistakes the offspring of a certain spiritual grandeur ill matched with the meanness of opportunity perhaps a tragic failure which found no sacred poet and sank unwept into oblivion With dim lights and tangled circumstance they tried to shape their thought and deed in noble agreement but after all to common eyes their struggles seemed mere inconsistency and formlessness for these later born Theresas were helped by no coherent social faith and order which could perform the function of knowledge for the ardently willing soul

 trade from c 1600 1900 tracing its development from a trade devoted to selling small needlework articles ribbons and
 trimmings to one chiefly concerned with making and selling hats and bonnets **Books in Print**, 1961 **Empty Houses**
 David Kurnick, 2012 According to the dominant tradition of literary criticism the novel is the form par excellence of the
 private individual Empty Houses challenges this consensus by reexamining the genre's development from the mid nineteenth
 to the mid twentieth century and exploring what has until now seemed an anomaly the frustrated theatrical ambitions of
 major novelists Offering new interpretations of the careers of William Makepeace Thackeray George Eliot Henry James James
 Joyce and James Baldwin writers known for mapping ever narrower interior geographies this book argues that the genre's
 inward looking tendency has been misunderstood Delving into the critical role of the theater in the origins of the novel of
 interiority David Kurnick reinterprets the novel as a record of dissatisfaction with inwardness and an injunction to rethink
 human identity in radically collective and social terms Exploring neglected texts in order to reread canonical ones Kurnick
 shows that the theatrical ambitions of major novelists had crucial formal and ideological effects on their masterworks

Investigating a key stretch of each of these novelistic careers he establishes the theatrical genealogy of some of the signal techniques of narrative interiority In the process he illustrates how the novel is marked by a hunger for palpable collectivity and argues that the genre's discontents have been a shaping force in its evolution A groundbreaking rereading of the novel *Empty Houses* provides new ways to consider the novelistic imagination
