Japan in Decline Purnendra Jain, Brad Williams, 2011-03-21 To what extent is Japan in decline In recent years popular writings media commentaries and analysts often take the view that the rise of Japan is long since over and that the world's second largest economy is not just treading water but that society and the economy are failing with potential catastrophic outcomes But is this really the case Could it be that once again Japan is being misread and misinterpreted Are there not both obvious and less obvious signs of renewal and recovery And how might the new DPJ led government reform Japan Based on papers given at a major international conference held at the University of Adelaide in November 2009 this thesis is examined here by a group of the world's leading specialists in their fields addressing many of the key issues facing Japan today from the economy and environment to education social policy politics internationalization diplomacy security This volume will have wide ranging interdisciplinary relevance for students and specialists alike

**Immigration and Quality of Life in Ageing Societies** Aeneas Zi Wang,Aimi Muranaka,Florian Coulmas,2024-08-16 This edited book argues that a new perspective on immigration is needed As many advanced economies are ageing and their populations stagnate or decline immigrants are increasingly required to fill in the gaps left behind by shrinking workforces Against this backdrop the outdated view that it is and can only be a privilege for immigrants to move temporarily from less to more developed economies needs a rethink In particular questions about how

attractive a host destination can be for immigrants not just in economic but also in social political linguistic and cultural terms should be raised Considering in detail the situation in Japan and Germany Japan where there are hardly any convenience stores without foreign employees Germany where retirement homes would no longer function without foreign nursing staff the book analyses migration to these two countries in different aspects such as education training and labour market participation and policies and actions on the part of the state and policymakers in rendering moving to and living in these countries worthwhile Bringing together leading scholars active in diverse aspects of migration in Japan and Germany this book will be a valuable resource to students and scholars with an interest in immigration issues in these two countries specifically and Europe and Asia more broadly Creating Social Cohesion in an Interdependent World Tetsuo Mizukami, 2016-04-08 Creating Social Cohesion in an Interdependent World examines the ways in which two very different societies Australia and Japan have dealt with challenges to their cultural and institutional fabric as well as the social cohesion arising from the acceleration of global interdependence during recent decades Deepening globalization has generated great social dislocation and uncertainty about collective identity and to anxiety about how to accommodate apparently unstoppable external influences The studies in this volume explore areas which have experienced significant impact from globalization including immigration policy ethnic and racial intermarriage attitudes towards ethnic and racial minorities national and cultural identity education policy and labor relations The approach used is innovative in juxtaposing two societies which although developed are contrasting in their historical origins and contemporary cultural legacies **Asian Studies**, 2013
