
Chapter 01 - New World Beginnings 33,000 B.C. - A.D. 1783

I. Introduction

- Receded human history is only one small portion of earth history
- European explorers “stumbled” on the Americas, altering the course of history in Europe, the Americas, Asia, and Africa

II. The Shaping of North America

- Geologic forces and climate change created the distinctive No. American continent

III. Peopling the Americas

- Ancient Americans probably crossed the Bering “land bridge” from Asia between 35,000 and 10,000 years ago (25,000 year window). Receding ice and rising oceans eliminated the bridge.
- These peoples slowly migrated and inhabited both continents, perhaps numbering up to 54 mill. by 1492 A.D. (4 mill. in No Amer)

IV. The Earliest Americans

- Corn/maize was the central agricultural crop that sustained many of the Indian cultures, moving them from nomadic hunters toward settled agricultural societies
- Complex maize culture spread slowly from Mexico north and east into No. Amer, reaching the southeast as late as 1000 A.D. – Creeks, Choctaws, Cherokees – three-sister farming: corn, beans, squash
- Inquis developed their confederacy as late as the 1500s
- Most American societies were small & migratory – women farmed, men hunted – women often held political and cultural authority
- Though Americans did not dominate the land, they still manipulated it to meet their agricultural needs

V. Indirect Discoverers of the New World—

- Despite early settlements in NE NoAmer @ 1000AD, Norse explorers lacked the social organization to maintain them
- European expansion and connections with Africa and Asia were the catalysts for “discovering America”
- Crusades familiarized Europe with exotic and desirable goods that they were now willing to take risks to trade for

Reading Popol Wuj Nathan C. Henne,2020-04-14 Popol Wuj is considered one of the oldest books in the Americas Various elements of Popol Wuj have appeared in different written forms over the last two millennia and several parts of Popol Wuj likely coalesced in hieroglyphic book form a few centuries before contact with Europeans Popol Wuj offers a unique interpretation of the Maya world and ways of being from a Maya perspective However that perspective is often occluded since the extant Popol Wuj is likely a copy of a copy of a precontact Indigenous text that has been translated many times

since the fifteenth century Reading Popol Wuj offers readers a path to look beyond Western constructions of literature to engage with this text through the philosophical foundation of Maya thought and culture This guide deconstructs various translations to ask readers to break out of the colonial mold in approaching this seminal Maya text Popol Wuj or Popol Vuh in its modern form can be divided thematically into three parts cosmogony the formation of the world tales of the beings who inhabited the Earth before the coming of people and chronicles of different ethnic Maya groups in the Guatemala area Examining thirteen translations of the K'iche' text Henne offers a decolonial framework to read between what translations offer via specific practice exercises for reading studying and teaching Each chapter provides a close reading and analysis of a different critical scene based on a comparison of several translations English and Spanish of a key K'iche' word or phrase in order to uncover important philosophical elements of Maya worldviews that resist precise expression in Indo-European languages Charts and passages are frontloaded in each chapter so the reader engages in the comparative process before reading any leading arguments This approach challenges traditional Western reading practices and enables scholars and students to read Popol Wuj and other Indigenous texts from within the worldview that created them
