Republic of Noise Diana Senechal, 2012 In this book Diana Senechal confronts a culture that has come to depend on instant updates and communication at the expense of solitude Schools today emphasize rapid group work and fragmented activity not the thoughtful study of complex subjects The Internet offers contact with others throughout the day and night we lose the ability to be apart even in our minds Yet solitude plays an essential role in literature education democracy relationships and matters of conscience Throughout its analyses and argument the book calls not for drastic changes but for a subtle shift an attitude that honors solitude without descending into dogma Provided by publisher On Indian Ground John W. Tippeconnic III, Mary Jo Tippeconnic Fox, 2021-05-27 This book explores American Indian Alaska Native Hawaiian education in the Southwest focusing on best practices and place based methods It covers history policy early childhood education gifted education parental involvement language revitalization and more The End of Public Schools David W. Hursh, 2015-10-16 The End of Public Schools analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public **Living Dead in the Pacific** Mark Munsterhjelm, 2014-01-31 Colonized since the 1600s Taiwan is largely a nation of settlers yet within its population of twenty three million are 500 000 Aboriginal people In their quest to learn about disease and evolution genetic researchers have eagerly studied this group over the past thirty years but have often disregarded the rights of their subjects Examining a troubling revival of racially configured genetic research and the questions of sovereignty it raises Living Dead in the Pacific details a history of exploitation and resistance that represents a new area of conflict facing Aboriginal people both within Taiwan and around the world The London Corn Circular ,1900 *Little Acorn and Westchester Homes* ,1933 **The Agricultural Gazette and Modern Farming** ,1894 **The New York Times Magazine** ,1966 **The Gardeners' Chronicle** ,1883 **Mark Lane Express** ,1898 Testing Regimes, Accountabilities and Education Policy Bob Lingard, Goli Rezai-Rashti, Wayne Martino, 2017-10-02 Around the globe various kinds of testing including high stakes national census testing have become meta policies steering educational systems in particular directions and having great effects on schools and on teacher practices as well as upon student learning and curricula There has also been a complementary global aspect to this with the OECD's PISA and IEA's TIMSS and PIRLS which have had impacts on national education systems and their policy frameworks While there has been a globalized educational policy discourse that suggests that high stakes

standardised testing will drive up standards and enhance the quality of a nation's human capital and thus their international economic competitiveness this discourse still manifests itself in specific vernacular path dependent ways in different nations High stakes testing and its effects can also be seen as part of the phenomenon of the datafication of the world and policy as numbers linked to other reforms of the state including new public management network governance and top down and test based modes of accountability This edited collection provides theoretically and empirically informed analyses of these developments This book was originally published as a special issue of the Journal of Education Policy
